OUTSIDE the BOX LEARNING RESOURCES

www.otb.ie

Dear Educator,

Over the past two years, working across three continents, we have carefully curated our 2026 Educational Catalogue - bringing together some of the most respected names in global educational publishing alongside our own trusted OTB proprietary titles.

Within these pages, you'll find evidence-based, classroom-tested resources from leading publishers including **Ingrove Press** and **Ready Ed Publications (Australia)**, **Essential Resources** and **User-Friendly Resources (New Zealand)**, **Pavilion Publishing (UK)** and many more - all selected to support effective teaching and meaningful learning outcomes.

We are particularly proud that several international partners have licensed OTB's proprietary publications and school programmes for use in their own markets - a reflection of the strength, relevance and impact of Irish-developed educational resources on a global stage.

This catalogue includes carefully organised primary and secondary school resources, with clear navigation to help you quickly identify age suitability, either primary, secondary or suitable for both.

PRIMARY ✔ SECONDARY ✔ PRIMARY ✔ SECONDARY ✔

You will also find a wide range of professional resources to support your own development - from CPD and differentiation to well-being and self-care.

All titles are produced in our advanced in-house print facility, allowing us to maintain high production standards while supporting sustainable local business practices. We offer next-day delivery on most of our publications and licensed materials, ensuring the resources you need are available when you need them.

To explore our full range, please visit **www.otb.ie/shop**

For online training programmes, please visit **www.otblearning.ie**

Additional copies of this catalogue — or a digital version — are available via the QR code below or at **www.otb.ie/catalogues**

We look forward to continuing to support you as you think outside the box in your classroom and we thank you for all your support over the last 21 years.

Yours in education,

Ronan Ó Baoill
On behalf of the team at OTB

WELCOME TO WELL-BEING

REVISED EDITION

Aligned to Learning Outcomes of the Wellbeing Specification (2025)

Author: Fiona Forman (also author/co-author of ***Weaving Well-Being*** and ***Wired for Well-Being***)

Welcome to Well-Being (www.otb.ie/w2w) is a three-level well-being programme for ages 4.5 to 7.5+ that helps young children explore feelings, friendships, confidence and belonging through structured, age-appropriate learning. Each level includes a pupil activity book that becomes a personal well-being portfolio, capturing the child's reflections and experiences.

PRIMARY ✔

Built as a multi-media teaching model, every level also includes a Teacher Guide with access to a comprehensive **Digital Companion Page (DCP)**. The DCP provides PowerPoints for all 10 lessons, supporting videos, printable worksheets, parent guides and additional extension materials - giving teachers a complete, ready to use well-being pathway.

The programme supports early emotional awareness, self-regulation, empathy, resilience and positive relationships, offering schools a clear, engaging and flexible well-being resource for the early years or schooling.

Recommended ages: 4.5 to 7.5+

Author: Fiona Forman M.Sc.

POSTER SETS: A, B & C

FRAMEWORK OF THE WELCOME TO WELL-BEING PROGRAMME

Welcome to Well-Being: Meet Mo and Ko!	*Welcome to Well-Being: Good to be me with Mo and Ko!*	*Welcome to Well-Being: Feeling good with Mo and Ko!*
Lesson 1: It's good to be me	**Lesson 1:** I can be my best self	**Lesson 1:** We all belong
Lesson 2: All feelings are OK	**Lesson 2:** I can name my feelings	**Lesson 2:** We can name our feelings
Lesson 3: I'm ready for my big feelings	**Lesson 3:** I can name more feelings	**Lesson 3:** We can express our feelings
Lesson 4: Spread happiness	**Lesson 4:** I can tame my feelings	**Lesson 4:** We can feel our energy
Lesson 5: It's cool to be calm	**Lesson 5:** Sprinkle kindness	**Lesson 5:** We can change our energy
Lesson 6: It's OK to feel sad	**Lesson 6:** I'm ready to relax	**Lesson 6:** We can do hard things
Lesson 7: I'm proud of myself	**Lesson 7:** It's OK to feel worried	**Lesson 7:** We are good enough
Lesson 8: It's OK to feel angry	**Lesson 8:** Today I'm thankful	**Lesson 8:** We care and share
Lesson 9: I can be brave	**Lesson 9:** My friends have feelings too	**Lesson 9:** We can solve our problems
Lesson 10: It's good to be me	**Lesson 10:** It's good to be us	**Lesson 10:** It's good to be us

Weaving Well-Being

THE MORE YOU WEAVE... THE BETTER YOU FEEL!

PRIMARY ✔

REVISED EDITION

Aligned to Learning Outcomes of the Wellbeing Specification (2025)

Weaving Well-Being (www.otb.ie/wwb) is a five-level well-being programme for ages 7.5 to 12+ that helps children build confidence, resilience, emotional awareness and positive relationships through engaging, evidence-based activities. Grounded in Positive Psychology, each level includes a pupil book that becomes a personal record of a child's strengths, reflections and well-being skills.

Ar fáil i nGaeilge freisin ✔

Built as a multi-media teaching model, every level also includes a Teacher Guide with access to a comprehensive **Digital Companion Page (DCP)**. The DCP provides PowerPoints for all 10 lessons, supplementary activities, classroom posters, supporting videos and additional digital content - giving teachers a complete, ready-to-use well-being pathway for the middle and senior primary school years.

Designed to be used sequentially or as standalone levels, ***Weaving Well-Being*** supports children in developing optimism, self-efficacy, emotional regulation, empathy and a strong sense of belonging.

Recommended ages: 7.5 to 12+ **Authors:** Fiona Forman M.Sc. & Mick Rock

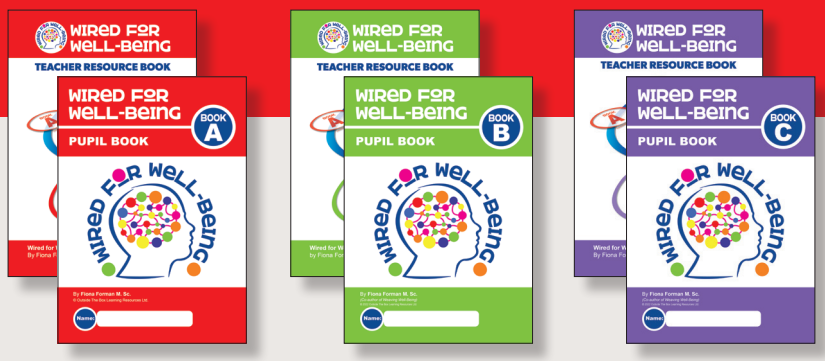
WIRED FOR WELL-BEING

NEW positive mental well-being programme based on Positive Psychology for pupils aged 12 to 15+



Aligned to the revised Junior Cycle SPHE Curriculum Learning Outcomes (2023)

SECONDARY ✔

Wired for Well-Being (www.otb.ie/w4w) is a three-level well-being programme for ages 12 to 15+ that helps young people build resilience, emotional awareness, positive relationships and healthy thinking habits through practical, evidence-based activities. Each level includes a student book that supports personal reflection, strengths-based learning and the development of lifelong well-being skills.

Built as a multi-media teaching model, every level also includes a Teacher Guide with access to a comprehensive **Digital Companion Page (DCP)**. The DCP provides PowerPoints for all 8 lessons, supplementary activities, classroom posters, supporting videos and additional digital content - giving teachers a complete, ready-to-use well-being pathway for the early secondary school years.

Drawing on Positive Psychology and Neuroscience, the programme reinforces and revisits key concepts across all three levels, helping students develop positive habits, emotional regulation, optimism, self-efficacy and a strong sense of connection. Each level can be taught sequentially or used as a standalone module.

Recommended ages: 12 to 15+

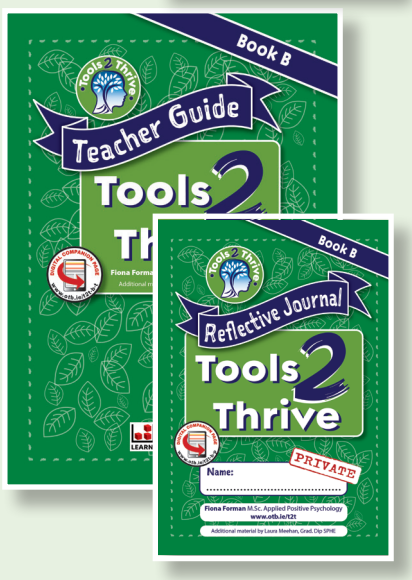
•Tools 2 Thrive•

SECONDARY ✔

Tools to Thrive is a two-level positive mental well-being programme, based on Positive Psychology and neuroscience. It is aimed at students aged 15 and older.

Aligned to the Revised Senior Cycle SPHE Curriculum Learning Outcomes (2024)



Tools to Thrive (www.otb.ie/t2t) is a two-level well-being programme for ages 15 to 17+ that supports students in developing resilience, emotional regulation, healthy thinking habits and practical life skills for senior secondary school years. Each level includes a student Reflective Journal, that encourages reflection, strengths-based learning and the development of positive well-being habits as adolescents navigate increasing academic and social demands.

Built as a multi-media teaching model, every level also includes a Teacher Guide with access to a comprehensive **Digital Companion Page (DCP)**. The DCP provides PowerPoints for all lessons, supplementary activities, classroom posters, supporting videos and additional digital content, giving teachers a complete, ready-to-use well-being pathway for older students. In addition, there is an optional Pupil DCP.

Drawing on Positive Psychology and Neuroscience, the programme reinforces key concepts across both levels, helping students build optimism, self-efficacy, emotional awareness, stress management skills and a strong sense of agency as they prepare for adulthood. Each level can be taught sequentially or used as a standalone module.

Recommended ages: 15 to 17+

Author: Fiona Forman M.Sc.

Adventures in Coill Calm series

Step into Coill Calm, where adventure, friendship and the magic of the outdoors shape every story. In this warm, exciting new series, the Greendale friends discover that the woods are more than a playground—they're a place to grow. Through mysteries, mishaps, courage and kindness, each book blends woodland adventure with real-life themes such as identity, bullying, confidence, teamwork, self-regulation and belonging. Perfect for independent readers or read-aloud time, Coill Calm celebrates resilience, friendship and the power of nature for ages 7 to 13 years.

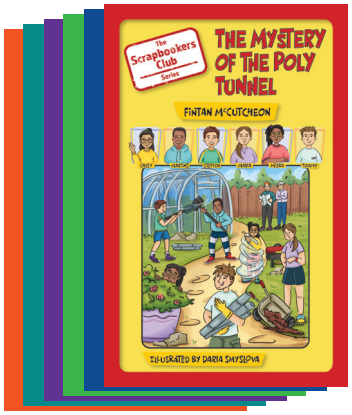
The Scrapbookers Club - Series



The Scrapbookers Club is a lively and engaging children's series perfect for middle to upper primary readers. Ideal for independent reading, class novels or teacher read-aloud sessions, the stories naturally spark discussion around contemporary themes such as equality, anti-bullying, anti-racism and good citizenship.

Join six friends - Tommy, Maria, Martins, Steffen, Mizra and Casey - as they unravel local mysteries, tackle personal dilemmas and tumble headfirst into madcap adventures. Along the way, they face real-life challenges with courage, humour and heart (often while the well-meaning but not-so-wise adults look on!).

Packed with fun, suspense, friendship and unforgettable characters, ***The Scrapbookers Club*** is a series that keeps children turning the page - and thinking long after the story ends.

Creative Mindfulness - by Louise Shanagher

Author: **Louise Shanagher**

100% IRISH

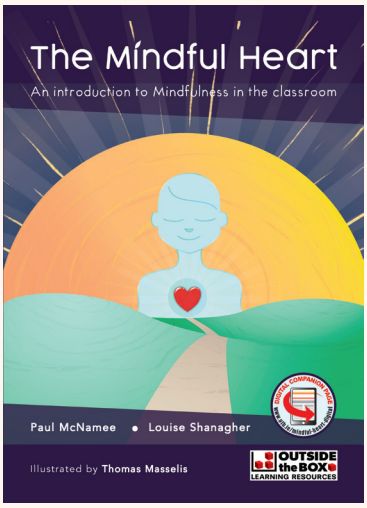
The ***Creative Mindfulness Kids*** programme was developed by Louise Shanagher, a Children's Therapist, Psychology lecturer and Mindfulness teacher from Co. Roscommon. Louise has created a collection of resources including books, cards and a Primary School Curriculum which introduces the Creative Mindfulness method to children.

The ***Creative Mindfulness Kids*** method is a unique programme which introduces mindfulness and self-compassion practices to children in fun, creative and engaging ways. Children learn how to calm and relax their minds, to focus and pay attention, to understand and express their thoughts and feelings and cultivate kindness for themselves and others through creativity, stories, art, craft, meditation, visualisation and discussion.

The ***Creative Mindfulness Kids*** method aims to promote positive mental health and well-being for children whilst equipping them with valuable self-care tools that will last a life-time.

The Mindful Heart - Introduction to Mindfulness in the Classroom

PRIMARY ✔



The ***Mindful Heart*** curriculum is a mindfulness-based curriculum designed for Irish primary schools. The curriculum introduces evidence-based mindfulness and self-compassion practices to children using fun, creative and child-friendly methods. The curriculum contains 10 lesson plans which can be adapted to suit age ranges from junior infants to sixth class. The lessons contain detailed step-by-step instructions, mindfulness stories, colourful comic books, workbook pages and guided meditation scripts. An abundance of free online resources which are especially designed to accompany the curriculum including ***Mini Mindful Moment***s videos and guided audio meditations are included. The curriculum also focuses on supporting teachers to develop their own mindfulness and self-compassion practice. The ***Mindful Heart*** curriculum is a perfect support for schools who wish to promote positive mental health and well-being for both students and teachers alike and is aligned with the Irish Primary schools SPHE curriculum. Includes digital companion page. Ages: 5-12

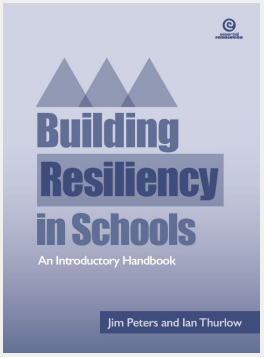
Building Resiliency in Schools
- An Introductory Handbook



PRIMARY ✔
SECONDARY ✔

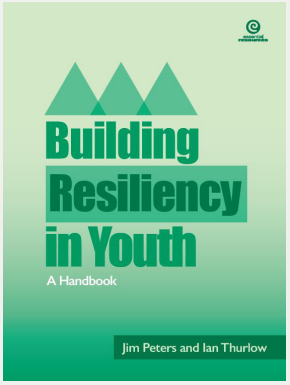
Building Resiliency in Schools introduces the concept of resiliency and offers ideas on how it can be immediately applied within the organisation of a school. The notion of resiliency is based on many years of research and practice. It focuses on the processes of human development and the forces within and outside us as people that promote positive, healthy growth for both individuals and groups, as well as the organisations of which they are a part. It is about connections, hope and possibility. Ages: 5-15

Authors: Jim Peters & Ian Thurlow

PRICE €25.00 ISBN: 9781877300103

Both books €45.00

Building Resiliency in Youth
- A Handbook



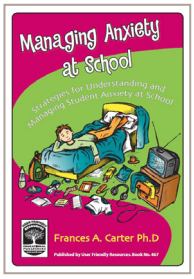
SECONDARY ✔

Building Resiliency in Youth is written for all people who work with youth. It includes a brief explanation of the concept of resiliency, an outline of the factors that help to build resiliency and practical ways of nurturing resiliency behaviours. Also included are activities designed to assist the planning and implementation of resiliency-building practices. Ages: 13-17

Authors: Jim Peters & Ian Thurlow

PRICE €25.00 ISBN: 9781877300363

Managing Anxiety at School



PRIMARY ✔
SECONDARY ✔

This book contains a series of 18 topics that can be used to support students in developing a repertoire of responses for managing feelings of anxiety and fear before they get out of control. Students will learn to understand what triggers their feelings of anxiety and also learn how to control these feelings so that they do not become overwhelming. They will learn to pay attention to the physiological and psychological processes they undergo when they experience anxiety and learn skills, including positive self-talk and slow breathing, to calm themselves down. The author initially trained and worked as a primary school teacher before becoming a clinical psychologist. Ages: 9-13+

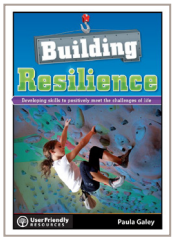
Author: Frances A. Carter Ph.D

PRICE €20.00 ISBN: 9781869682613

Building Resilience - Developing Skills to Positively Meet the Challenges of Life

BEST SELLER

PRIMARY ✔
SECONDARY ✔



Offers a proactive, preventative approach within an educational paradigm that is based on the premise that resilience can be taught and that factors can be altered to facilitate resiliency among at-risk students. Fundamentally it serves to implement the strategies needed to reduce risks and strengthen protective factors. It provides a unified set of practical learning opportunities that seek to help adolescents develop and enhance protective mechanisms and to offset risk factors. It provides background information, implementation guidelines and targeted student activities in relation to eleven core resiliency competencies.
Suitable for ages 10-14+ **Author:** Paula Galey

PRICE €30.00 ISBN: 9781927172506

Retracking - A Photocopiable Resource Pack aimed at Promoting Student Effectiveness

PRIMARY ✔
SECONDARY ✔

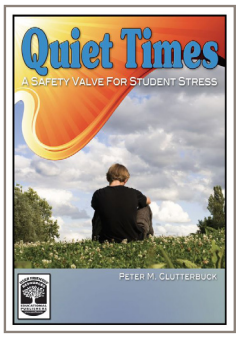
This photocopiable book is designed to promote student effectiveness and support students who have been experiencing difficulties at school, which may have led to their exclusion. It guides students on a journey in three distinct stages: (a) Raising awareness of the factors and experiences which contributed to their current situation; (b) Understanding of their emotions and behaviour in different settings; (c) Skills training aimed at tackling areas of difficulty which have been identified in the previous stages. Written by an experienced educational psychologist, the book contains over 60 different activities. Ages: 9-14+

Author: Jenny Bates

PRICE €29.95 ISBN: 9781855225480

Quiet Times - A Safety Valve for Student Stress

PRIMARY ✔
SECONDARY ✔



Overloaded, stressed out students with special learning needs require proactive and targeted support to help them to develop the tools necessary to manage their stress levels. One such technique is taking small 'time-outs' or 'quiet times'. This photocopiable resource book provides a broad range of self-contained and brief readings that can be used during these time-out periods, each linked to a particular topic that may be creating stress for the student. Each reading is followed by a small series of questions that encourage the student to think about the reading in the context of stress management ideas and techniques.
Ages: 10-14+ **Author:** Peter M. Clutterbuck

PRICE €20.00 ISBN: 9781869685775

Meaningful Mindful Poetry -
- Well-being and Mindfulness Poetry

A collection of mindful poetry for children. The poetry explores strategies to help children and teenagers deal with a range of emotions and situations that they may find challenging. Through the poetry, the children are given the opportunity to practise mindfulness and explore their own well-being in a safe and nurturing way.

Ages: Book 1: 5-8 years, Book 2: 8-11 years and Book 3: 11-14 years.

Changes in Adolescence

SECONDARY ✔

€25.00 each

All three for €70.00

As students begin the metamorphosis from childhood to adulthood, they need a good understanding of the changes and challenges they are likely to face. These books cover many aspects of relevant health education. They ground each topic in realistic scenarios that adolescents relate and respond to and offer thought-provoking activities from interviews and surveys to role plays, pamphlet design and planning and budgeting. Each topic begins with a moral dilemma to set the topic in a believable context and energise the activities that follow. Ages: 12-16+

Author: Dee Doherty

Book 1 - Understanding physical and emotional changes

- Topic 1: Being responsible

Values for Lifelong Learners

SECONDARY ✔

What are my values? How do I apply them in a tricky situation? What if they clash with someone else's values? These are just some of the questions that this ***Values for Lifelong Learners*** series encourages students to explore and answer. Targeting students at a formative, highly impressionable age (11–13 years), its activities tap into a range of well-tested teaching methods for identifying and reflecting on values. A key component of each book is the dilemmas section, in which students examine their values within the context of various moral issues that many young people face today. The books are organised to gradually broaden the focus outwards: starting from the individual (Book 1), then moving on to the community (Book 2) and finally the environment (Book 3).

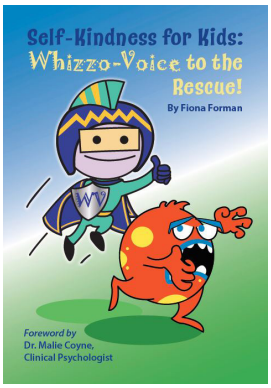
Self-Kindness for Kids
- Whizzo-Voice to the Rescue

PRIMARY ✔



This little book will help children to engage in positive self-talk and be kind to themselves.

- Have you ever said things like this to yourself?
- I'm such an idiot!
- Why did I do that?
- I can't believe I did that, I'm so stupid!
- Why am I not as good as everyone else?

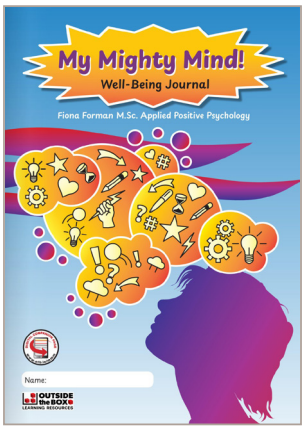
The truth is that we all speak to ourselves unkindly sometimes and judge ourselves harshly. This story book for kids will help them to be kinder to themselves. Ages: 6-8+

Author: Fiona Forman

PRICE	€7.95	ISBN: 9781906926984

My Mighty Mind -
- Well-Being Journal

PRIMARY ✔



My Mighty Mind is a well-being journal with lots of ideas to help your mind to feel strong and mighty! Looking after your mind is also called looking after your mental health. Hopefully, it will help your well-being too, because when we help our minds to feel strong, we can feel more confident and resilient. Extra resources to accompany the journal are available for free online on the accompanying Digital Companion Page.

This journal is designed for children aged 8-12+ although older children might find the activities beneficial too.

The Life Skills Series

PRIMARY ✔

The ***Life Skills Series*** was developed to equip the busy classroom teacher with practical and relevant ideas for enhancing essential life skills in individual students. Numerous resources are aimed at addressing topical life issues such as bullying, self esteem, coping with loss or disability, dealing with divorce and so on, yet most of these resources are aimed at a whole-school level. This innovative series aims to fill the gap between the frameworks set out by international bodies and the delivery of sensitive, yet meaningful, lessons in the everyday class. Activities can be used as one-on-one discussions or as whole class activities, depending on the situation. The materials are designed for middle to upper primary students, however, the ideas and information are appropriate for all primary school children. Each book contains extensive background notes for teachers, parents and students. Ages: 8-12

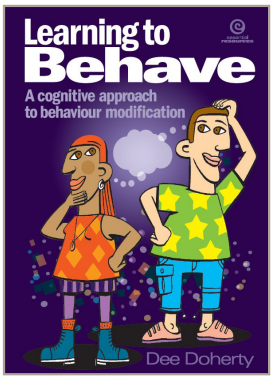
Learning to Behave - A Cognitive Approach to Behaviour Modification



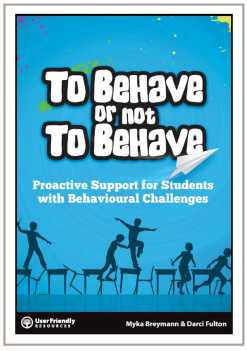
PRIMARY ✔
SECONDARY ✔

Where there is an imbalance between a student's perspective and that of a school, misunderstandings and conflict can arise. ***Learning to Behave*** offers a programme of support to help achieve an equilibrium in which students learn to see other viewpoints and engage constructively in learning opportunities. Grounded in a cognitive approach, it essentially offers a type of training in problem-solving skills as students identify problems, generate alternatives, think about consequences and find solutions. Ages: 11-14

Author: Dee Doherty

PRICE	€29.95	ISBN: 9781927143995

To Behave or Not to Behave - Practical Support for Students with Behavioural Challenges



PRIMARY ✔
SECONDARY ✔

This comprehensive resource will provide educators with the skill sets and training required to work successfully with students displaying behavioural challenges. It is a strength-based, proactive approach intended to provide educators with an understanding of the 'ABCs of Classroom Discipline' (Attitude and Skills - Teach; Behaviour - Manage; Compliance - Guide) essential to working with students with severe emotional and behavioural challenges. A broad range of lesson plans and visual supports are provided.

About the Authors

Dr. Rob Long - Rob is a chartered educational psychologist whose main interest is supporting children who face social, emotional and mental health difficulties. He is committed to providing practical solutions to help understand the challenges that many children and young people face.

Keith Hodgins - Having spent half of his 30-year police career working with young people, Keith has dealt with many complex family matters approaching each with honesty, openness and humour. His main influences are his psychological and family therapy training - as well as his wife and daughter, who provide him with constant angst, fun and love.

Sandra Curtin-Maggs - Sandra has worked in education for the past 12 years. She supports parents/carers of children with various degrees of additional needs, be it a long-term condition or a temporary blip. She has a particular interest in improving the emotional well-being of both children and parents/carers, with a focus on helping the family to help themselves.

Energy - The Framework, Tools, Strategies & Logic to Support Regulation

PRIMARY ✔
SECONDARY ✔

A written walk-through of all the Autism Level UP! tools and ways of thinking about supporting regulation for yourself or others. Designed with Autistic and Neurodivergent people in mind, but perfectly suitable for all neurotypes!

The term "regulation" is tossed around a lot today (and maybe regulation likes or requires that kind of sensory input…), especially in the form of "emotional regulation." How does Autism Level UP! conceptualise regulation? We think about ENERGY and energy regulation.

This manual will teach you how we think about ENERGY and how you can use it for yourself or to support others through the introduction of our tools, worksheets and ways of thinking. We offer ideas on how to introduce the concept to people with wide ranging neurotypes and communication profiles as well as how to ensure a fair and equitable partnership develops in which the burden of change and growth is on both the person and the partner.

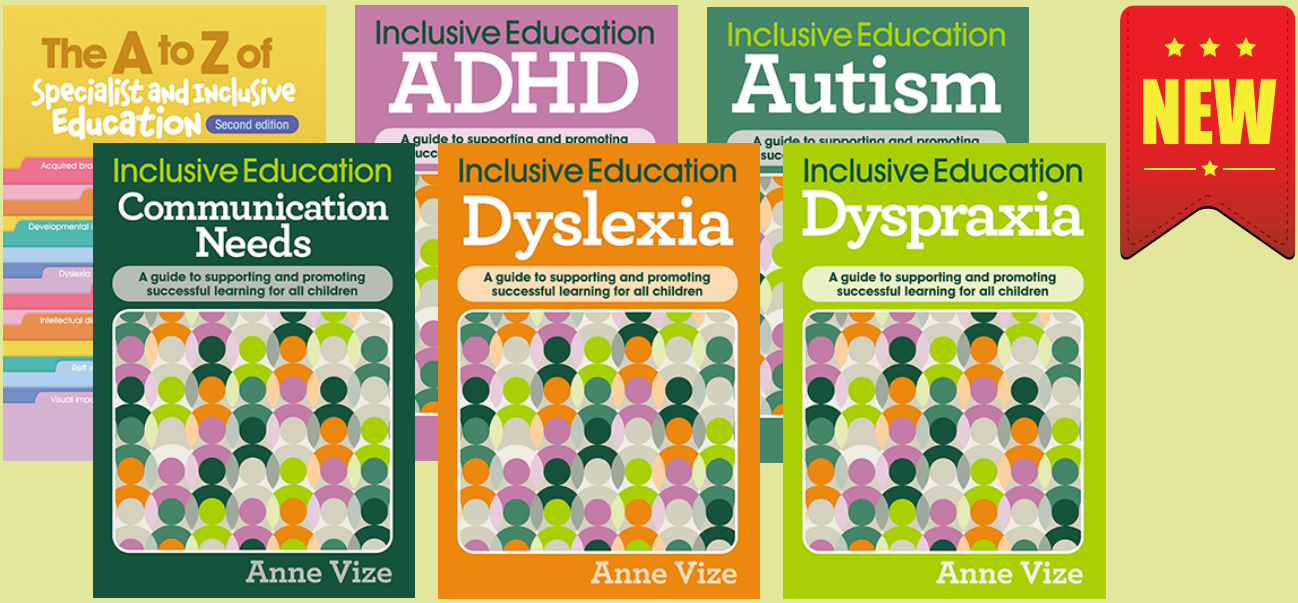
Inclusive Education Series



The ***Inclusive Education Series*** (2025) is a six-book collection offering clear, practical and up-to-date guidance for supporting diverse learners in early years and school settings. Written by one expert author, the series blends evidence-based insights with accessible, strengths-focused strategies that help every child learn, participate and thrive.

Book 1: The A to Z of Specialist and Inclusive Education, is a comprehensive reference guide covering a wide range of disabilities, health conditions and learning differences. Each double-page spread outlines key features, implications for learning and practical adaptations, giving educators a quick, reliable overview of best practice.

Books 2–6: ADHD, Autism, Communication Needs, Dyslexia, and Dyspraxia - provide easy-to-read, condition-specific guidance for classroom and early years settings. Each book includes strengths-based teaching tips, research spotlights, real-world examples and practical strategies for creating inclusive, supportive learning environments.

Together, these six books form a modern, accessible toolkit for educators committed to helping all children grow, learn and succeed.

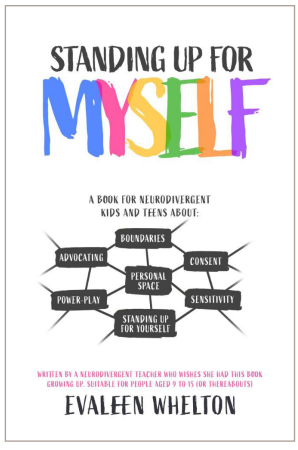
Standing Up for Myself - A Book for Neurodivergent Kids and Teens about: Advocating, Boundaries, Consent, Personal Space, Power-Play, Sensitivity & Standing Up for Yourself!



Standing Up for Myself is a beautiful book that addresses the important areas of social interaction that are often overlooked for Autistic children. The focus of this invaluable resource is to empower Neurodivergent children and teens to understand themselves, their boundaries and how others might try to manipulate them. The book is full of informative insight and has lots of space for exploratory exercises for the user.

The proudly Autistic author Evaleen Whelton is the founder of ***AUsome Training*** and is a passionate educator on all things Autistic.

Konnect Books - Social Communication Exercises for Neurodivergent Kids

The ***Konnect*** series of books has been revamped and is now more Neuro-affirming than ever! Written by proudly Autistic author and founder of ***AUsome Training*** Evaleen Whelton, the series demonstrates the very best way to support Autistic kids socially.

Unlike most social skills books written by people who are not Autistic and do not understand Autistic communication, this series of three Neuro-affirming books support Autistic children to explore their own communication and navigate their social world.

The books are designed to suit multiple users so are suitable for schools, parents professionals, etc. ***Konnect Books 1, 2 & 3*** are written to be used as a series, with all ages starting with Book 1. The real beauty is… everyone learns from the books, not just the child.

Minding My Sensitive Self

PRIMARY ✔
SECONDARY ✔

Minding My Sensitive Self is a warm, affirming guide for children aged 9+ who experience the world with depth and sensitivity. It offers a safe space where sensitivity is not something to fix, but to understand, value and care for.

Written by Evaleen Whelton, the book gently helps readers make sense of their sensory experiences, emotions, energy and relationships. With a neuro-affirming approach, it celebrates diverse ways of thinking, particularly for autistic and neurodivergent young people.

Through relatable stories, reflections and practical tools, it supports self-awareness, confidence and self-acceptance, while helping readers understand their needs and advocate for themselves. Widely praised for its warmth and authenticity, it is a compassionate, empowering resource for home, school or therapeutic settings.

Dyslexia Matters
- Effective ways of working with children who struggle to read, write and spell

PRIMARY ✔

Learning language patterns for reading and spelling is a key to literacy for all children. What sets the ***Dyslexia Matters*** series apart is its focus on best practice for teaching these patterns to children with dyslexia. It offers a rich and important foundation of phonemes, phonologic awareness and general phonics knowledge. Designed as a progression of activities, it also has the flexibility to work only on the age-levelled patterns of each book where appropriate.

Dyscalculia Matters
- Effective ways of working with children who struggle with maths

PRIMARY ✔

Dyscalculia Matters offers the guidance you need to teach these children successfully. It clarifies where a child with dyscalculia needs to start in their maths learning and how to teach them so that they can connect with this subject. Written by a teacher with extensive experience in dealing with dyscalculia, this series sidesteps ineffectual worksheets and instead concentrates on offering a wealth of hands-on ideas that you can use to guide the child through the concepts essential for maths learning.

TASKS GALORE

PRIMARY ✔
SECONDARY ✔

Tasks Galore is a very user-friendly and practical series that helps parents, teachers and therapists create meaningful, hands-on learning tasks that build independence for autistic and neurodivergent learners. Developed to give adults clear functional tools for supporting children at home and in school, the series emphasises ***Structured TEACCHing*** methods and strong parent–professional collaboration.

Recommended by the ***TEACCH® Program*** (*Treatment and Education of Autistic and Related Communication Handicapped Children*) at the University of North Carolina, Tasks Galore showcases the core strengths of structured teaching, visual clarity, predictable routines and individualised supports, while offering an abundance of multi-modal, real-world task ideas that move beyond traditional pencil-and-paperwork. There are six books in the series (one with a reader for the child).

Age suitability: 4-15

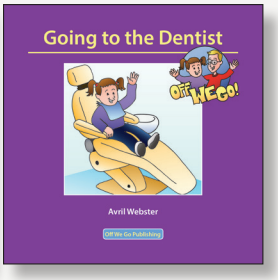
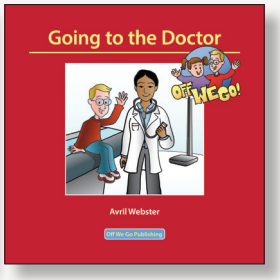
Off We Go! Series

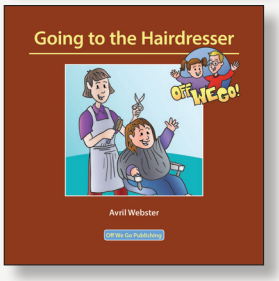
Social Storybooks

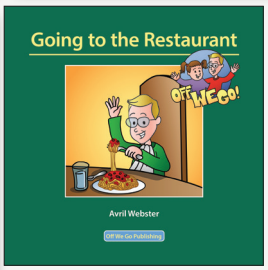
for Children with Autism and other Communication Difficulties

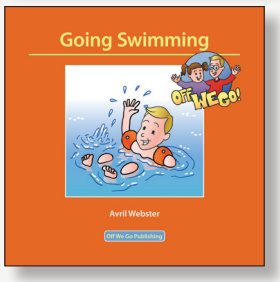
Ar fáil i nGaeilge freisin

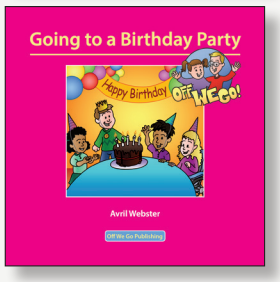


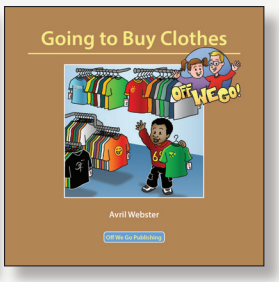


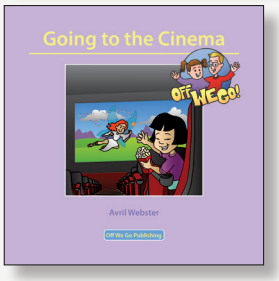


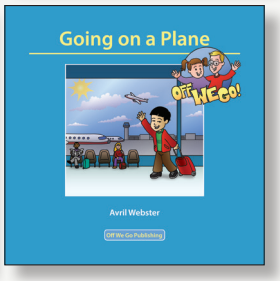












The ***Off We Go! Series*** is a set of social storybooks that support children with autism and communication difficulties as they navigate everyday activities. Each book breaks a familiar event into twelve clear, visual steps, helping children understand what to expect and feel more confident. The stories work as social narratives, pre-outing preparation or visual prompts and can be adapted into personalised books or cards. Written in a warm, accessible style, the series builds understanding, independence and predictability in daily routines.

Author: Avril Webster

These books are of particular benefit to:

- **Autistic children**
- **Children with intellectual disabilities**
- **Children with communication difficulties**
- **Pre-school children**
- **Children who are learning English as a second language**

Recommended ages: 5-10+

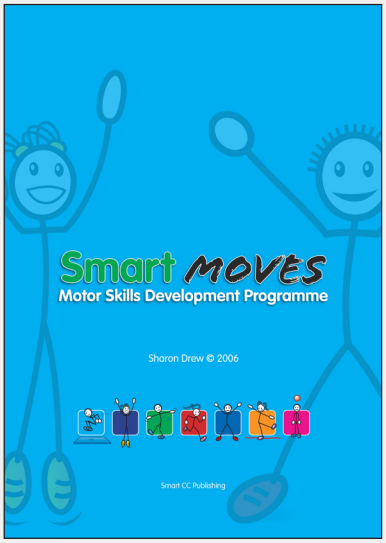
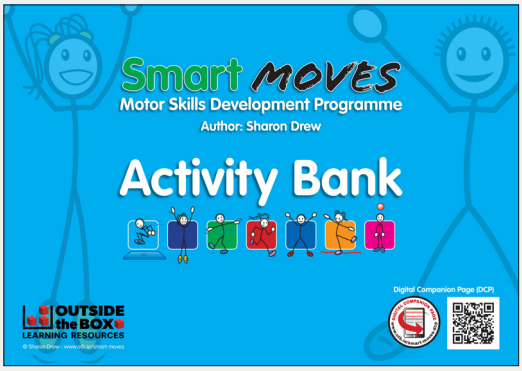
Smart MOVES
Motor Skills Development Programme

BEST SELLER

PRIMARY ✔





Features of the Programme:

- ***Individualised Evaluation and Monitoring***
- ***Self-paced Physical Skill Development***
- ***Extensive PE Activity Bank***
- ***Comprehensive Programme Guide***
- ***Movement Abilities Profile***

Dive into a specialised programme that supports children's motor skill enhancement comprehensively. This programme integrates seamlessly with the PE curriculum, offering a rich activity bank and tools including a comprehensive guide and Digital Companion Page (DCP). Each component is designed to facilitate tailored learning experiences, ensuring progress in motor coordination and physical education.

Educators are equipped with a ***Movement Abilities Profile (MAP)*** and screening guidance to effectively measure and support each child's motor skill development. The inclusion of diverse PE activities caters to individual needs, fostering both development and enjoyment in physical education contexts.

Empower children with motor skills challenges by providing them with a structured, engaging toolkit that promotes growth, independence, and joy in learning through physical activity.

Awesome Auditory Activities

PRIMARY ✔

This book contains twenty detailed, varied and easy-to-use exercises designed to improve auditory memory skills. The activities aim to increase listening and memory skills through tasks like sequencing, following verbal instructions, memorising lists, regrouping in thought and more. Activities are set at one of three increasing difficulty levels and each includes a teacher's page with helpful instructions and ideas, as well as a photocopiable student's page. A chart included allows students to track their improving auditory skills. Many of the exercises can be linked simply into existing curricular study areas. Ages: 8-11+

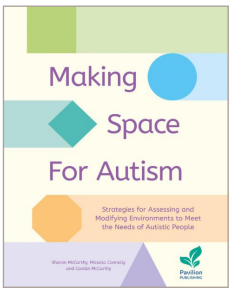
PRICE	€25.00	ISBN: 9781869685768

Making Space for Autism - Strategies for Assessing and Modifying Environments to Meet the Needs of Autistic People

PRIMARY ✔
SECONDARY ✔



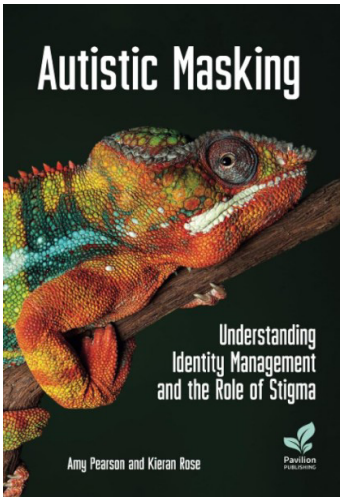
Historically, there has been an expectation that autistic children and adults should conform their behaviour to social norms, with strategies and interventions centred around navigating spaces and situations with minimal damage. This person-centred environmental assessment and modification programme moves away from this, with the aim to provide information and tools for assessing and reflecting on features of the autistic person's environment to best support their comfort, autonomy and agency.

Authors: Sharon McCarthy, Micaela Connolly, Caolán McCarthy

PRICE	€58.95	ISBN: 9781803882420

Autistic Masking - Understanding Identity Management and the Role of Stigma

PRIMARY ✔
SECONDARY ✔



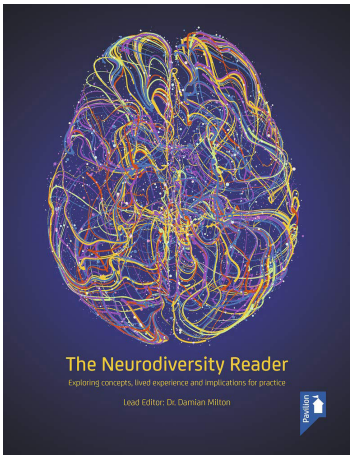
This book aims to define the process of autistic masking and the underlying reasons for its existence. It will consider the social context, including an individual's response to stigma or trauma, that facilitates impression management.

Authors: Amy Pearson, Kieran Rose

PRICE	€34.95	ISBN: 9781803882116

The Neurodiversity Reader - Exploring Concepts, Lived Experience and Implications for Practice

PRIMARY ✔
SECONDARY ✔



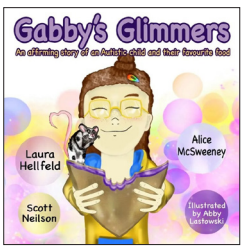
The Neurodiversity Reader collection brings together work from pioneering figures within and beyond the neurodiversity movement to critically explore its associated concepts and how they might be translated into practice.

Author: Damian Milton

PRICE	€43.95	ISBN: 9781912755394

Gabby's Glimmers - An affirming story of an Autistic child and their favourite food

PRIMARY ✔



Meet Gabby - a creative, board-game-loving, spooky-story fan with a serious love of jam sandwiches and Meeple, their squeaky rat best friend. In this warm and reassuring rhyming story, Gabby and Meeple discover the little "glimmers" that bring joy, comfort and connection, especially around food, sensory differences and feeling safe in your own way. Celebrating neurodivergent experiences and "same foods," the story gently encourages children to embrace their needs with confidence. Includes three interactive pages for children to personalise - exploring what brings them joy, their favourite comfort foods and how they care for others. Perfect for home or classroom sharing. Ages: 5-8+

Authors: Laura Hellfield, Scott Neilson & Alice McSweeney

PRICE	€18.95	ISBN: 9781399997850

The Inclusion Toolkit - Book A: Planning & Book B: Troubleshooting

PRIMARY ✔
SECONDARY ✔

This two-book photocopiable toolkit provides professional development support and expertise to those teachers who have students with both physical and intellectual disabilities integrated into their classrooms. **Book A** provides charts, templates and suggestions which cover the introduction of the student to the class along with strategies for helping them to work effectively with other students. This book shows how to develop the Individual Education Plan (IEP) for the student. **Book B** provides practical guidelines and interventions for dealing with the kinds of issues that most commonly arise with inclusion.

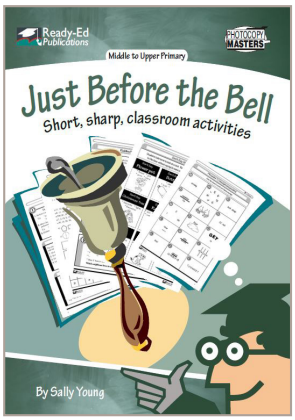
Just Before The Bell - Short, Sharp, Classroom Activities

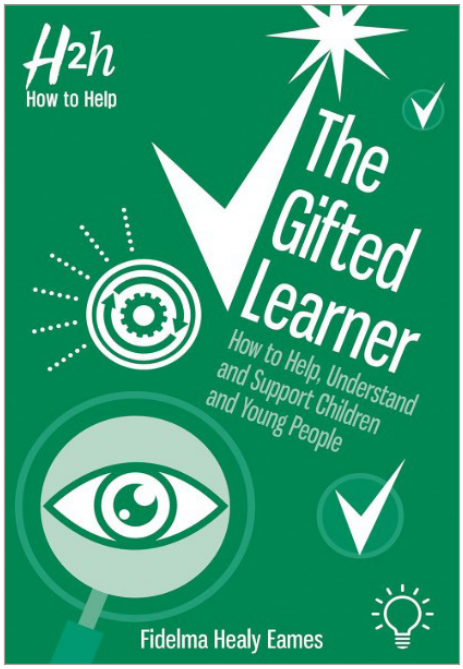
PRIMARY ✔



Just Before the Bell provides games, puzzles, quiz questions and lateral thinking activities for middle-upper primary students. The activities are useful as attention-grabbers to focus students at the beginning of a lesson, or equally perfect as wind down activities or end-of-session rewards. Lessons have been organised into 5, 15 and 20 minute lessons. A relief teachers' bible, this book is full of activities that will interest and engage students. Ages: 8-12

Author: Sally Young

PRICE	€20.00	ISBN: 9781863977555



The Gifted Learner - How to Help (H2h), Understand and Support Children and Young People

SECONDARY ✔

The Gifted Learner is a complete introduction in how to nurture high-ability students. The book reveals how to unlock the potential of a gifted learner, so that their gift becomes a talent that is celebrated, enriching their life and the lives of others.

Gifted children are often overlooked in education, as they are perceived to be high achieving. However, not all have a consistent high ability, or achieve in all subjects. Some gifted learners can also have a learning difficulty and many are emotionally immature and need to be nurtured, holistically at cognitive and emotional levels. This book shows how.

The book includes chapters on curiosity, creativity, boredom and perfectionism. There are nineteen case studies of individual learners, their parents and teachers, which provide real and authentic insights into recognising, understanding and supporting the Gifted Learner.

Author: Fidelma Healy Eames

PRICE	€29.50	ISBN: 9781803880501

Rethinking Rebuses - Dingbats to Stimulate Thinking

PRIMARY ✔
SECONDARY ✔

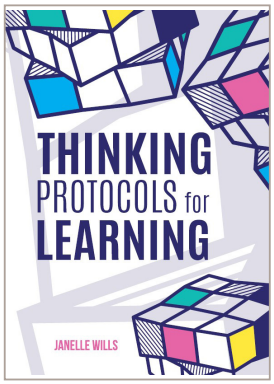
Author: Łukasz Krzywoń

PRICE	€34.95	ISBN: 9781913225889

Thinking Protocols for Learning



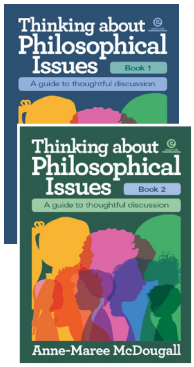
PRIMARY ✔
SECONDARY ✔

Thinking Protocols for Learning empowers readers to implement deliberate practice and intentional application of protocols and provides strategies for the promotion of different types of thinking. These are not time-fillers or isolated activities; they integrate instruction for crucial skills into the existing curriculum for more effective engagement. Educators often struggle to find a resource that addresses all of the key types of thinking. This book is a response to that need, drawing on and concisely synthesising ideas and approaches from many different areas and authors.

Author: Janelle Wills

PRICE	€32.95	ISBN: 9780645931594

Thinking about Philosophical Issues - A Guide to Thoughtful Discussion



PRIMARY ✔
SECONDARY ✔

Thinking about Philosophical Issues is designed to stimulate discussion and help students to develop their skills of discrimination and reasoning. The focus is not on finding "an answer" as such but rather on the process you and your students go through to reach one (or more). Like the discussions it inspires, this resource can be taken in many different directions. You can pick the questions that suit you and your class and give students the opportunity to choose the ones they are most interested in.

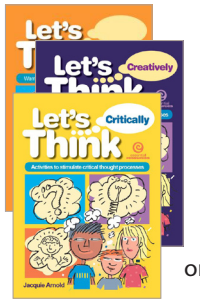
Let's Think!



PRIMARY ✔

Let's Think! is series of three books that encourages children at all levels of the primary school to think of new ideas and ways of doing things, to think outside the square, to look at the world they live in through new eyes and ask Why? or Why Not? Each book focuses on developing different thinking skills, (e.g., questioning, reasoning, problem-solving), but the activities across the series link together so that teachers can plan entire lessons or units by using activities from all three books.

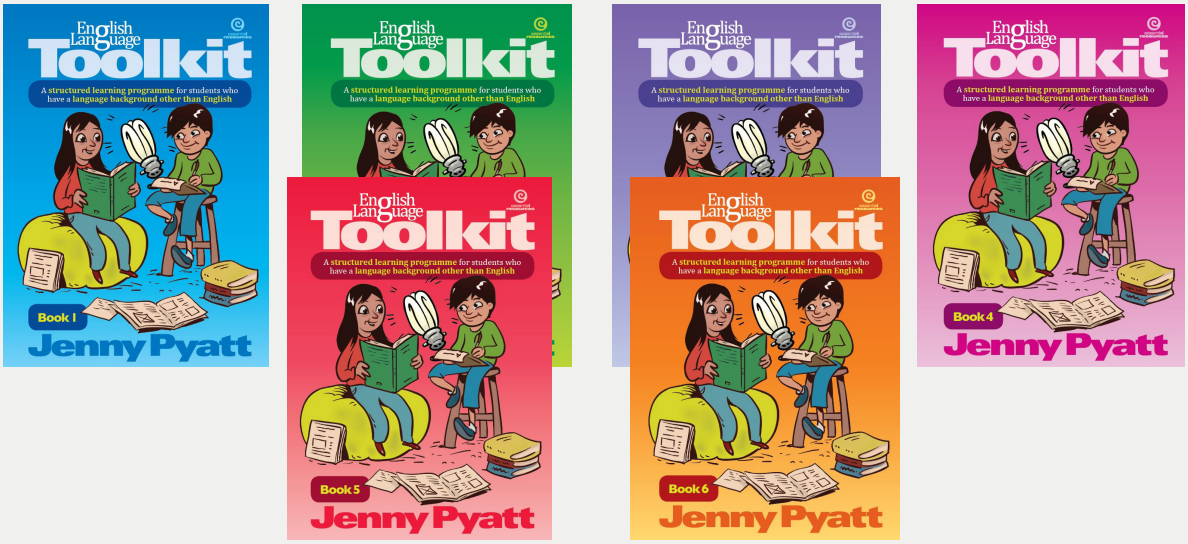
English Language Toolkit - A structured learning programme for students who have a language background other than English

PRIMARY ✔



The ***English Language Toolkit*** series is an in-depth resource that primary teachers can use with all students in their classroom who have a language background other than English. Specifically it offers ideas, activities and materials to help transition these students into an English-speaking classroom and then to steadily build their skills as English speakers and listeners. Some activities involve both speaking and writing while others are focused on listening, thinking and discussion. Many of them are suitable for whole-class vocabulary extension. All books offer taskboard labels and learning outcome cards plus other supporting resources suited to the learning level – ranging from alphabet and basic word cards in **Books 1–3**, to maths and literacy language resources in **Books 4–6**. Gentle scaffolding is fundamental to the design of the series so that students can confidently build on their success.

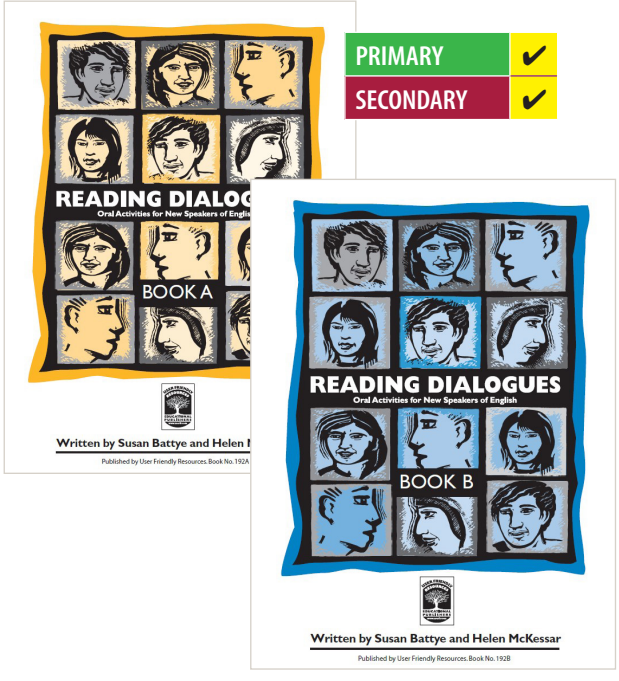
Reading Dialogues - Oral Activities for New Speakers of English



PRIMARY ✔
SECONDARY ✔

EAL teacher, Helen McKessar and drama specialist, Susan Battye, have teamed up to bring you this two-book photocopiable series. Each book contains a series of 'dialogues' or short plays which are intended to be read aloud in small groups and then discussed. The dialogues are tailored to different language levels in both books and are interesting, challenging and fun. Each dialogue starts with a series of pre-reading activities which will prepare students for the vocabulary ahead. Dialogues are followed by a range of post-reading activities which can be used to check comprehension, practise vocabulary in other language mediums, recognise the importance of colloquialisms and idioms in spoken English and make points about the formal structure of the language.

The Easy English Series
- For ESL and ESD Students

PRIMARY ✔
SECONDARY ✔

The ***Easy English Series*** consists of eight photocopiable teacher resource books, all of which have been carefully constructed to increase the proficiency of the use of standard English by ESL (English as a Second Language) and ESD (English as a Second Dialect) students. This Australian originated series immerses students in a language programme which is accessible and relevant to the lives and experiences of young people, regardless of their cultural and linguistic backgrounds. The series is very well laid out with an appealing font, graphics that will appeal to all ages and text which is well spaced out and uncluttered. The activities in each book are suitable for ESL/ESD students or any students who are struggling with the English language. This series is long-awaited and collectively the books are a much needed professional teaching resource. Recommended for Primary and Lower Secondary students.

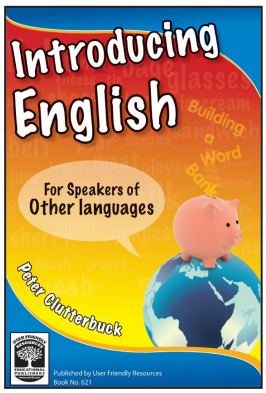
Introducing English - For Speakers of Other Languages

PRIMARY ✔
SECONDARY ✔

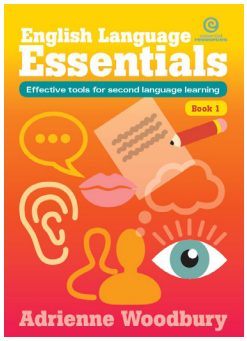


This EAL (English as an Additional Language) resource provides both written and oral exercises that are designed to provide natural learning experiences to expand and extend English vocabulary. The book is geared to provide the same step-by-step learning process that students used when acquiring their first language. In a simple, user-friendly manner, the book takes students from basic oral activities to basic sounds and words and then onto more complex word understanding. Ages: 8-13+

Author: Peter Clutterbuck

PRICE €20.00 **ISBN:** 9781869685072

English Language Essentials
- Effective tools for second language learning



PRIMARY ✔

This invaluable resource for teaching young speakers of languages other than English covers written, oral and visual language. It is strongly focused on what English students will need in their everyday environments. Key areas covered include language for interaction, emotions, seasons, text structure and organisation along with expressing and developing ideas. The diverse activities inspire interest through their lively ideas, appealing illustrations and real-life experiences students can relate to.

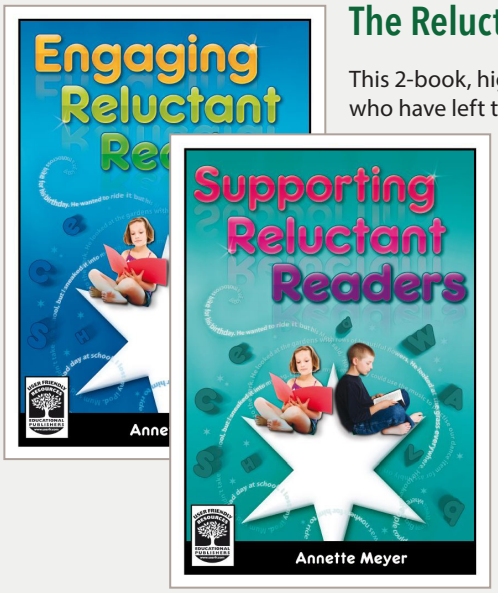
The Reluctant Readers' Series

PRIMARY ✔
SECONDARY ✔

BEST SELLER



This 2-book, high-interest series caters for students who have left the junior primary but are still struggling with reading. The series aims to capture their interest with a range of vibrant, relevant reading work units. Each book is comprised of eight guided reading units presented in a variety of structures. Each unit has a detailed step-by-step lesson plan along with a learning intention, a text for the students to read (or for teacher to share) and a variety of follow-up activities designed to improve literacy skills. Text types include: Recount; Newspaper Article; Recipe; Non-fiction; Poem; Comic and Diary. Ages: 8-14+

- See also: ***Amazing Survival Stories*** and ***Extreme Survival Stories*** for reluctant readers on page 86.

ISBN	
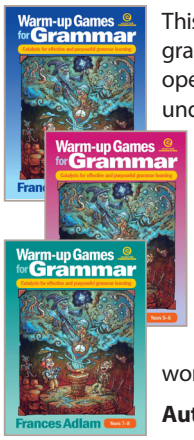
Years 3-4: (Ages: 7-8)	9781776551873
Years 5-6: (Ages: 9-10)	9781776551125
Years 7-9: (Ages: 11-12+)	9781776551149

€25.00 each | **Set €70.00**

This ***Grammar Smart*** series is designed to fit in with any classroom-based English programme. The activities are an opportunity to explore and practise important skills and strategies in areas, such as parts of speech, punctuation, word knowledge, dictionary and thesaurus skills. Explanations and examples of different aspects of grammar and comprehension provide further learning support, while learning intentions with each activity enhance students' sense of purpose and direction. Ages: 7-12+

Author: Caroline Mulholland

Warm-up Games for Grammar - Catalysts for Effective and Purposeful Grammar Learning



PRIMARY ✔

This series brings grammar out into the open so that children can see it, play with it and understand how and why we need to learn about it. Each book draws on successful techniques from drama, movement and sports games to offer exciting and creative ideas for making grammar learning easy, fun and purposeful. The empowering message underlying this series is that when we understand grammar, we are better equipped to express ourselves by arranging words in ways that bring them to life. Ages: 7-12+

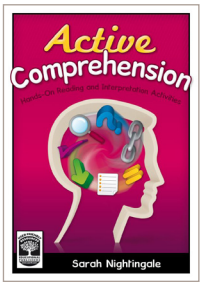
Active Comprehension - Hands-On Reading and Interpretation Activities



PRIMARY ✔
SECONDARY ✔

Active Comprehension is a collection of comprehension activities that encourages a hands-on approach to engaging with texts. As the name implies, the activities get students doing; drawing, cutting, pasting, manipulating and physically organising their response to texts. Skills include predicting, summarising, evaluating, inferring, making connections, finding information and much more. Ideal for visual and kinaesthetic learners, dyslexic students, EAL students, reluctant readers and writers and students with special learning needs. Ages: 10-13+

Say, Read, Succeed

- Nursery rhyme, story and poem activities to build oral language and early reading skills

Say, Read, Succeed provides a comprehensive programme to achieve key literacy goals. It is based on the principle that stronger oral language skills will strengthen reading, writing and spelling skills. A learning outcome makes the intention of each activity clear to both teacher and student. Additional guidance comes from an assessment rubric. By making learning transparent for the student and the teacher, it shows where the student is at and what their next step in learning is. This is based on the three progressions of HOT (Higher Order Thinking) – surface, deep and conceptual. All books have attractive blackline masters including an illustrated version of each poem. Ages: 5-7+

Text Types is a four-book series which is designed to help students understand and appreciate the idea that texts differ from one another in terms of their purpose, structural features, language features and the medium in which they appear. The series introduces students to a range of text types and in this way enables them to become confident in identifying a text as a particular type and qualifies them to form expectations about its content, form and objectives. The series also functions to help students begin to write different types of texts confidently and incorporate the different features of each text type accurately. The solutions for all the activities are provided at the back of each book. This series is highly recommended for any teacher teaching English in upper primary or lower secondary school. Ages: 10-14

REVISED Newell Literacy Programme

The Fully Revised complete Programme consists of:

- **NLP Books/*eBooks*: 1 to 7**
- **Set of flash cards**
- **Digital Companion Pages**

The Newell Literacy Programme

The fully revised ***Newell Literacy Programme*** is a structured, phonics-based approach that teaches learners to blend individual letter sounds into syllables and words for reading, writing and spelling. Now presented in ***Sassoon® Primary*** font for improved legibility, the programme is suitable for all ages from 5 to adult, including learners of English as an additional language.

The programme consists of seven finely graded books/eBooks, each offering highly structured lesson plans that build skills step by step. The teaching approach is based on a modified ***Orton-Gillingham method***, with clear, photocopiable lessons, explicit techniques and the flexibility for teachers to dip in and out of specific lessons to meet diverse learning needs. With no graphics, the materials maintain a clean, accessible layout appropriate for older learners as well as younger students.

Each level now includes a Digital Companion Page (DCP) featuring PDF versions of all books and flashcards, along with an instructional video from the author's first edition. This digital access makes it easier for teachers to project lessons, print materials and support learners across classroom and home settings.

A set of 30 A5 flashcards accompany the full programme. Books and/or flashcards can be purchased separately.

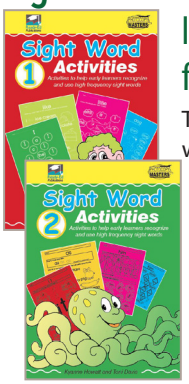
Sight Word Activities - Activities to help early learners recognise and use high frequency sight words



PRIMARY ✔

The sight word worksheets found in this book can be effectively used in conjunction with other classroom activities to reinforce children's sight word knowledge, e.g. modelled writing, oral reading, story telling and so on. The worksheets are designed for early learners and those requiring revision of skills. The minimal writing requirements are reinforced by being modelled and repeated on a page several times. Young children enjoy the activities and the presentation encourages eager participation in the learning process. Ages: 4-6+

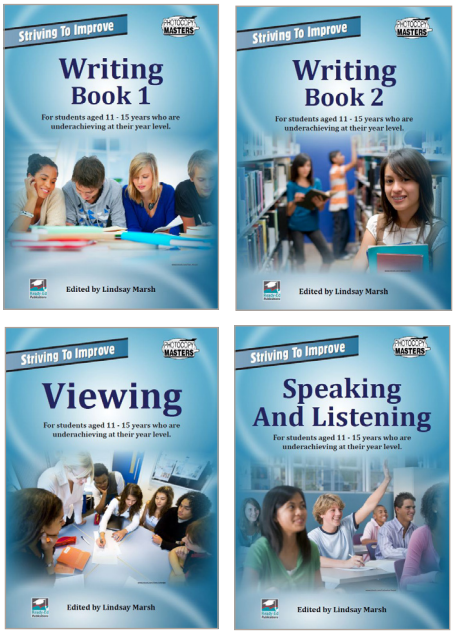
Striving to Improve - Literacy Series - For students aged 11-15 years who are underachieving at their year level

SECONDARY ✔

BEST SELLER



The Striving to Improve Series targets students who, for whatever reason, are struggling to keep up with their peers.

The photocopiable books are designed to prevent students from regressing any further at school. The tasks are based on a modified curriculum so that students can work at their own pace and without constant supervision from the teacher. There are eight books in the ***Striving to Improve Series*** - the four here on literacy and four more on numeracy - see page 46.

Speaking in Sentences - Oral language activities to take the struggle out of literacy

PRIMARY ✔

This series takes a fresh approach to the standard components of any oral language programme, such as plays, current events, poetry and speeches. It contains new ideas and suggestions for other effective ways of encouraging students to speak clearly and to use correct grammatical structures. Activities will help students gain greater control over oral language with growing accuracy and confidence, so that they can: speak in full sentences; use correct grammatical structures and predict text in reading, thus accelerating reading progress. The activities cater for a wide range of abilities, with some for general classroom use and others for children who have special needs in regard to oral language. They can supplement EAL programmes and/or be used for homework activities. Books 1 and 2 are aimed at junior to middle primary with books 3 and 4 suitable for middle to upper primary. Ages: 7-12+

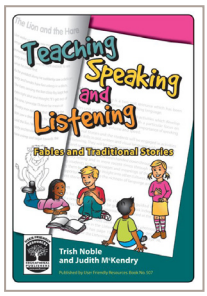
Teaching Speaking and Listening - Fables and Traditional Stories

PRIMARY ✔

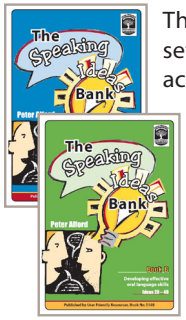


This photocopiable resource book uses the context of fables and traditional stories from many cultures to support the teaching of speaking and listening skills. In the Fables unit, students focus on speaking skills (expression, volume and speed). Fables include: ***The Fox and the Lion; The Hare and the Tortoise; The North Wind and the Sun; The Lion and the Hare***. In the Traditional Stories unit, students focus on listening skills (to recall and respond to information). Stories include: ***Rata's Canoe; The Turtle's Shell; King Midas; The Hen and the Hawk.*** Templates are provided for sequencing activities. Evaluation sheets are also provided, as are teacher monitoring sheets. Ages: 7-10+

Authors: Trish Noble & Judith McKendry

PRICE	€20.00	ISBN: 9781869683221

The Speaking Ideas Bank - Developing effective oral language skills



This series contains plans and resources for setting up and running over 40 speaking activities designed to build skills and competence in oral language. Activities support students' ability to think creatively and critically by developing skills and competencies in the following verbal language areas: improvised and impromptu speech; formal or conventional speech; questioning; reporting and describing; directing and reasoning. Activities contain an outline of the focus, preparation requirements, step-by-step instructions and extension ideas. Ages: 9-12+

Spell ~~Bite~~ Write Right

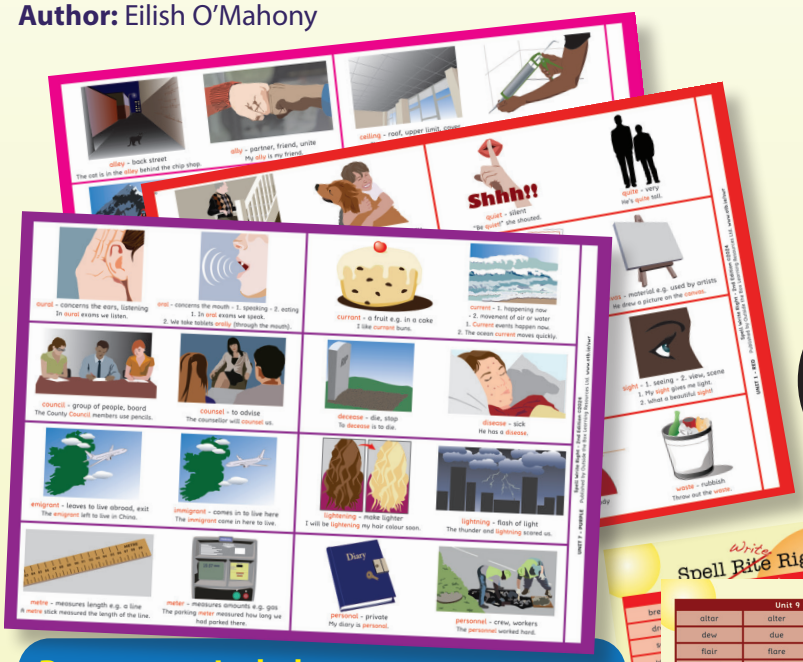
Full Set Price €149.95

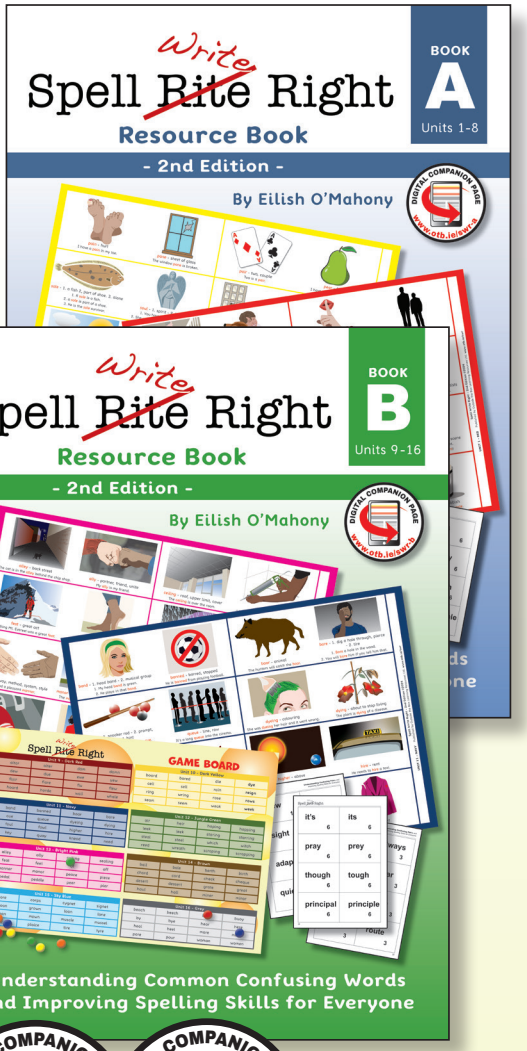
The ***Spell Write Right*** is a comprehensive, games-based programme designed to help older students master commonly confused words - particularly those who experience literacy difficulties or dyslexia. Common Confusing Words include pairs such as there/their/they're, to/two/too, canvass/canvas and many others that frequently cause difficulty. The programme uses an emerging font called ***Aravis***© throughout, researched and developed by UK specialist publisher Crossbow Education, which meets all accessibility criteria for dyslexia and the visual processing difficulties associated with the condition. Through structured practice, visual supports and engaging game boards, the programme strengthens spelling, vocabulary and word-meaning skills in a way that feels motivating and achievable.

The programme is suitable for ages 10 to adult and is ideal for learning support, resource teaching, small-group intervention or home-based practice. Its clear, accessible approach helps learners build confidence while developing lasting spelling strategies.

Recommended ages: 10-adult

Author: Eilish O'Mahony





Programme Includes:

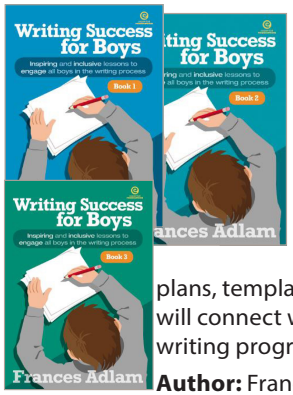
- **Two Teacher Resource Books (2nd Edition)**
- **A comprehensive Digital Companion Page with additional materials**
- **Sixteen full-colour A3 posters**
- **Eight full-colour, double-sided A3 game boards with 100 counters**

FULL SET PRICE | **€149.95** | **ISBN:** 9781805160342

Writing Success For Boys

- Inspiring and Inclusive lessons to engage all boys in the writing process

PRIMARY ✔
SECONDARY ✔



Fun and creativity occupy centre-stage as this series draws boys (aged 7 to 13) into writing and inspires them to persist, no matter what fiction or non-fiction text type they are working on. Each book contains ideas for lesson plans, templates and other fun activities. Boys will connect with this inclusive, purposeful writing programme. Ages: 7-13+

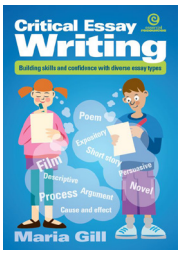
Critical Essay Writing - Building skills and confidence with diverse essay types

SECONDARY ✔



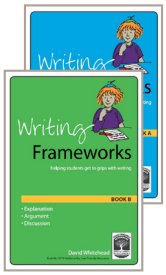
Critical Essay Writing is designed to build strong writing skills. As a crucial starting point, it breaks down the essay writing task into manageable skills and offers ample opportunities to practise and apply each one, including in online contexts. It then sets out a multitude of lessons in which students combine these skills in different ways to produce both literary essays and essays that are important to success in other curriculum areas, such as persuasive, argument and cause and effect essays. Not stopping at lesson plans, this truly "resource-full" book includes material for mini workshops on key aspects of essay writing, as well as numerous exemplars and activity and assessment templates. Ages: 12-16+

Author: Maria Gill

PRICE	€25.00	ISBN: 9781776550043

Writing Frameworks - Helping Students get to Grips with Writing

PRIMARY ✔
SECONDARY ✔



This two book resource series assists in the teaching of transactional text types to students. The books provide prewriting strategies, guides and model exemplars across seven writing genres.

Book A looks at recounting (timelines, recounting the news / an event), describing (an event / an object), procedure (flow charts, sequencing) and reporting (characteristics grids, brainstorming).

Book B looks at explaining (using a sketchboard), arguing (creative problem-solving) discussing and assessment. Ages: 10-14+

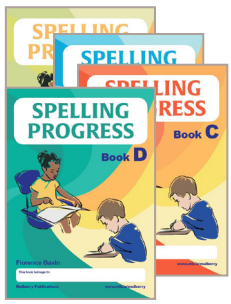
Spelling Progress

PRIMARY ✔



The purpose of this series of student spelling workbooks is to provide stimulus for spelling lessons. With the provision of pictures and the opportunity for drawing, visual and kinaesthetic learners are catered for. As they move on, Books C and D contain mathematical vocabulary which children need in everyday mathematics. Common words used in history and geography are also included. Book D introduces the child to basic crossword puzzles and rhyming words. Children can be taught to 'tap out' the number of syllables in words before learning to spell them. Ages: 7-10+

We Love Poetry

PRIMARY ✔

Written by an experienced teacher of poetry across all levels of the primary school, ***We Love Poetry*** showcases the author's enthusiasm for teaching poetry to children and young people. The numerous ideas and topics for poetry sessions presented in this series are interspersed with examples of poems written by children in the author's classes. The activities provided allow children not only to hone their writing and reading skills, but also to explore themselves and their world by exercising their powers of observation, creativity and imagination. Features:

- Offers creative writing ideas and topics for emergent through to independent readers
- Explores poetic devices and formats
- Sets out one-off and cross-curricular poetry sessions
- Provides photocopiable poetry scaffolds and templates

Author: Wendy Clarke

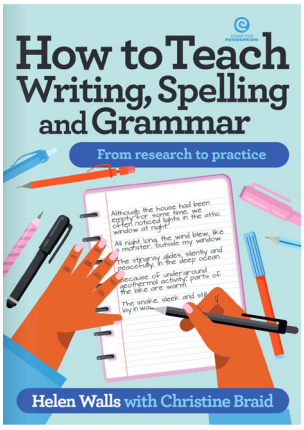
How to Teach Writing, Spelling and Grammar - From research to practice

PRIMARY ✔



Writing skills underpin success across the curriculum, support the development of thinking skills and are vital in many careers beyond school. Yet, in many countries, achievement rates in writing are low. How to Teach Writing, Spelling and Grammar offers a research-based, highly practical approach to making real progress in writing.

Authors: Helen Walls with Christine Braid

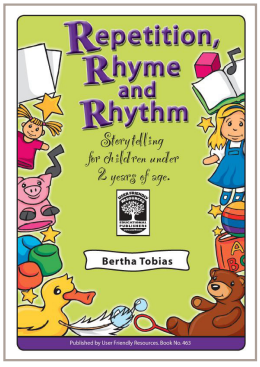
Repetition, Rhyme and Rhythm - Storytelling for children under 2 years of age



Repetition, Rhyme and Rhythm shows by telling a story, through the oral tradition, you are giving children the gift of your attention. The use of rich language allows children to develop imagination. This resource assists the practitioner to create an environment of story in which the well-being of the child is paramount thus giving a sense of belonging. Infants brains develop rapidly during the first 24 months. Exposure to rhymes, movement, music, language and books create pathways in the brain that assist future development. Ages: 0-2

PRIMARY ✔

PRICE €20.00 **ISBN:** 9781869682576

Teaching Through Storytelling - Storytelling for children aged 3 to 5

This photocopiable resource is a follow-on from ***Repetition, Rhyme and Rhythm*** and is aimed at teachers of early learners (3 to 5). By embracing the oral tradition, this resource shows how to tell, as opposed to read, stories. It contains rhymes, songs, stories and suggestions to try with children to support development in speaking and listening, develop spoken language competence, develop visual images in the mind, help them learn about living through drama and encourage development in reading. Children can be encouraged to tell their own stories if they are given the confidence to recognise narrative structure and conventions. Ages: 3-5

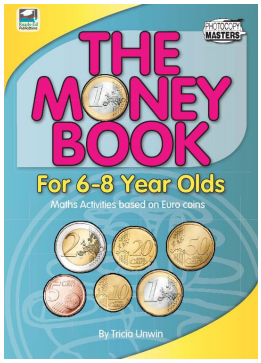
The Money Book for 6-8 Year Olds
- Maths Activities based on Euro Coins



PRIMARY ✔

Using Euro coins, students will develop their ability to: add, subtract, multiply, divide and solve practical everyday problems. They will also begin to recognise all Euro coins and understand their values. To demonstrate their learning, students will be asked to: cut and paste, round up and down, match, draw, write and study data. Visually appealing to engage the interests of young minds, this book is both practical and useful. Answers are provided at the back of the book. Ages: 6-8

Maths Together

100% IRISH

PRIMARY ✔

Written by Florence Gavin, ***Maths Together*** is a series of 6 Folders from Junior Infants to 6th Class level. It is a comprehensive resource for work in mathematics at each primary level. It contains a bank of ideas, examples, photocopiable worksheets and tests, covering all the key concept and skill areas of curriculum requirements. It has been designed for whole class teaching, group or individual work at each level. Answers to all problems and tests are included at the end of the manual. It is in a large, clear, A4 format, with over 250 illustrated pages per folder. Ages: 5-12

Maths Zone

PRIMARY ✔

Written by Florence Gavin, the ***Maths Zone*** series consists of 8 textbooks spanning from Junior Infants level to low Fifth Class level (***Maths Zone 8***). The books should be worked through in sequence beginning at the appropriate level for the child. A pupil may complete more than one book per year. The aim of this series is to give the pupils the language and hands-on experience through which they can interpret, analyse, describe, make predictions, estimate and solve the common mathematical problems of everyday living. The emphasis is on clear structured steps and consolidation of learning. The book numbers do not correspond to class level. They were written for the pupil learning maths with the help of the Resource or Learning Support Teacher. Ages: 5-11+

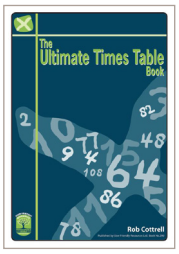
The Ultimate Times Table Book

PRIMARY ✔



This photocopiable book provides over 70 pages of innovative activities and ideas for teaching and learning the times tables. The book acts as a 'one-stop-shop' of effective hands-on activities, memory games, simple tricks, fun quizzes and teacher ideas. All the activities have been successfully trialled with a wide range of age groups. Also included are a range of additional activities that show students how times tables can be applied to other areas of maths - for example division, prime numbers and factors. The book can be used with students right through the school, from those who are just getting to grips with times tables, to older students who are having difficulty learning them. Ages: 7-12+

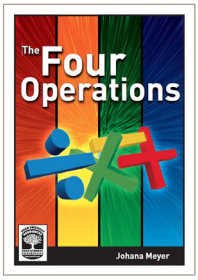
PRICE	€25.00	ISBN: 9781877282393

The Four Operations

PRIMARY ✔



This maths resource focuses on the essential maths skills of addition, subtraction, multiplication and division. Each operation is tackled in depth with numerous mental and practical approaches included for students learning or struggling with basic maths. Approaches include: Number Lines; Algorithms; Base Ten; Using Fingers; Shopkeeper's Method; Number Expanders; Grids; Operation Patterns ..and many more. Including the most simple approaches as well as tips, tricks and shortcuts for more advanced learners, the resource is designed to get students thinking mathematically and is suitable for a wide range of different ability levels and for whole class, small groups or individual work. Ages: 7-12+

Author: Johana Meyer

PRICE	€20.00	ISBN: 9781869685409

What Time is it?

PRIMARY ✔

This resource consists of a series of reproducible worksheets that teach time concepts and time measurement through realistic problem-solving activities. Organised, progressive tasks, presented in a step-by-step sequence of difficulty, help students to master the basic concepts of time-telling using digital and analogue clocks. Tasks move through the essential skills required to learn the analogue system and on to understanding common time terms, estimating time and scheduling activities. ***What Time Is It?*** provides balanced material to master both analogue and digital clock systems confidently. The book will prove an invaluable aid to your teaching of this crucial life skill.

Everyday Maths - Mathematics problems set in a real world context

PRIMARY ✔

The activities in these books are designed to present real-life problems to provide children with situations in which everyday maths comprehension skills are required. The tasks provide a foundation for the development of problem-solving skills and strategies - students are required to manipulate facts presented in order to solve the problem. Also included is a list of photocopiable brainteasers that explore the idea of lateral thinking.

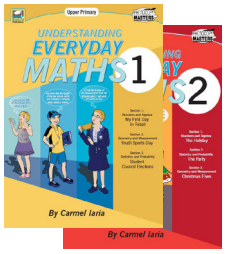
Understanding Everyday Maths

PRIMARY ✔



The ***Understanding Everyday Maths*** series is intended for Upper Primary maths students. The activities in the books are linked to engaging narratives. The narratives are cleverly illustrated – some with meaningful diagrams, graphs and charts. In the narratives the teenage characters come across mathematical problems during their everyday lives and must solve the challenges presented to them. Students will immediately identify with the characters in the stories and with the everyday mathematical challenges that they face. By doing so, students will understand how maths is a part of life. Maths Rescue Series - Activities for all students, including those with Specific Learning Difficulties, working at UPPER primary levels

PRIMARY ✔
SECONDARY ✔

Created for classroom teachers, the focus of this series is on the reinforcement of "the basics" in maths, as well as providing activities aimed at developing understanding of mathematics concepts. Students with Specific Learning Difficulties (SpLD) experience a range of problems with their academic learning. These problems include word recognition and comprehension; coping with pages that are too cluttered and with too many differing requirements; being required to sequence, recall and apply strategies in abstract situations; being required to process information while working to meet deadlines and having trouble with personal organisation with their school work. Whilst the books in this series are designed for students with learning difficulties, they can be used as a simple and straightforward introduction to concepts or a reinforcement of mathematical strategies for the whole class. The books follow a basic format, with each activity usually containing a choice of two worksheets to cater for a range of ability levels. Ages: 11+

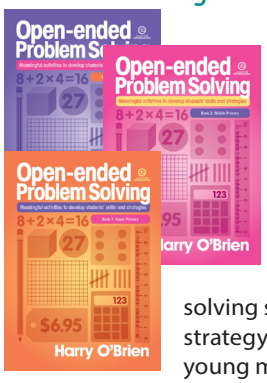
Open-ended Problem Solving
- Meaningful activities to develop students' skills and strategies

PRIMARY ✔



This series offers a bank of meaningful, open-ended and challenging activities for the primary classroom. For the teacher, they offer a relevant, easy-to-use resource while for students they are designed to be an enjoyable way to consolidate and progress their problem-solving skills. In using more than one strategy to answer a specific question, young mathematicians also learn that problems can be solved in more than one way and can have multiple solutions. At all levels, the interesting and varied problems are highly motivating and encourage students to explore both common and unusual situations.

Scientific Experiments

PRIMARY ✔
SECONDARY ✔

Make science accessible, relatable and absolutely irresistible with this four-book ***Scientific Experiments*** series. ***Explaining Scientific Experiments*** (two books) opens up tantalising opportunities for experimentation at the primary school level with step-by-step worksheets designed to light the spark of scientific curiosity in your classroom. ***Designing Scientific Experiments*** lays the foundations for productive and inspiring experimental work by budding scientists. It recognises that many students need to be explicitly taught about the scientific method so that they can design and conduct effective and meaningful experiments.

Students will find their logical next steps in ***Analysing Scientific Experiments***, from which they can experience the satisfaction of getting real meaning from experimental results. Through these activities they will develop the range of analytical and statistical skills they need to interpret their results and use their understanding of scientific principles to reach sound conclusions. Ages: 10-15

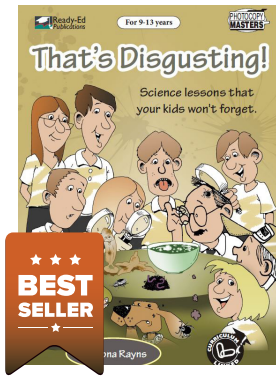
That's Disgusting! - Science Lessons that your Kids won't Forget



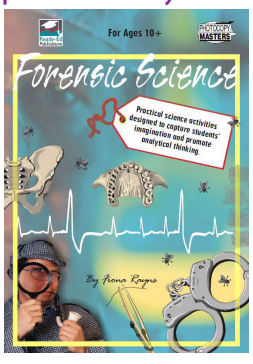
PRIMARY ✔
SECONDARY ✔

Sweat, warts, hairballs, halitosis, vomit, earwax and blood - these are just some of the gruesome but important educational topics covered in ***That's Disgusting!*** Each topic is delivered in a clear and humorous way and is designed to make students enjoy and remember science lessons for years to come. Full with foul facts, grotesque gossip and practical activities to get your students involved in science, this is a teacher resource that you shouldn't be without. Ages: 9-13+

Author: Fiona Rayns

PRICE €20.00 **ISBN:** 9781863977739

Forensic Science - Practical science activities designed to capture students' imagination and promote analytical thinking



PRIMARY ✔
SECONDARY ✔

Forensic Science contains a range of simple, yet fun, hands-on activities based around a topic that many students already have an interest in. Activities are highly stimulating, non-sequential and stand-alone, often requiring simple science materials that are readily available in most homes and school science resource centres. Tasks cater for both groupwork and independent learners. Ages: 10-13+

Author: Fiona Rayns

PRICE €20.00 **ISBN:** 9781863976121

Physical Education Games

PRIMARY ✔
SECONDARY ✔

This 3-book series has been designed with the aim of improving student fitness, using a wide range of fun team games and activities. Each book contains over 40 games that can be used with either a whole class or smaller groups. Also included are comprehensive sets of skill drills that develop ball handling techniques. The activities aim to: Promote team skills; Develop leadership skills; Increase heart rate; Develop muscle tone; Improve hand-eye and foot-eye coordination; Provide opportunities for social interaction; Reduce the risk of childhood obesity. Activities contain notes on equipment and space needed, time allocated, skills covered, a diagram and instructions for each activity.

Perfect Plays – For Primary Students (Junior Primary)

PRIMARY ✔

This invaluable series contains delightful plays for children to perform in front of large audiences. Production notes accompany each play to help teachers make decisions about costumes, props and stage sets. Each play has been cleverly written to incorporate popular songs and humour, to teach children important values and to allow for maximum participation. The series will help to give children the opportunity to develop a love and understanding of performance and develop the skills needed to participate in school productions. Each book contains three stage plays perfect for school productions and includes themed activities for each play.

The plays in each book are as follows:
Book 1: A Friend Indeed, Think Before You Act & Dreams Really Can Come True
Book 2: This Land is For Sharing, Do You Know What's Good For You? & The First Christmas

Ages: 4-8+

Author: Diana Bickford

Primary School Plays – Plays which accommodate one to three classes

PRIMARY ✔

The two books in this series each consist of four fabulous plays which can be modified to accommodate one to three classes. Ranging in length from 15 to 60 minutes, the plays can be staged at assemblies or other school events, such as concert nights. The plays have been written so that each character is on the stage for more or less the same amount of time. This allows every student to feel included and to shine. Costumes, props and scenery can be adjusted to suit any school budget. Fun, entertaining and engaging, this series will be a valuable resource in any school. Plays in each book are as follows:

Book 1: Santa's Christmas, Mother's Little Helpers, A Special Class of Dogs & Four Horses - A Tribute

Book 2: Lucky Numbers, The Wild West, Farmer Wilson's Haystack & The Magic Fishing Line

Ages: 7-12

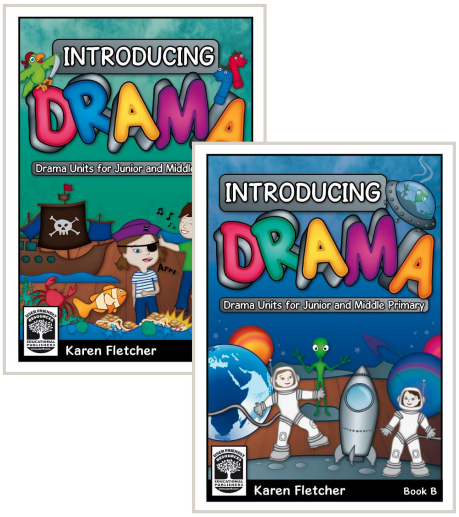
Introducing Drama - Drama Units for Junior and Middle Primary

PRIMARY ✔



This two-book series provides first steps into drama for young primary school students at the junior and middle primary levels. The resource includes units designed to integrate drama into the curriculum and inclusively allow students to participate in drama activities, develop literacy in drama and broaden their understanding of drama and its role in society. Learning outcomes will increase students' ability to express themselves, develop higher order thinking skills, increase their awareness of dramatic structures and conventions and raise psychomotor and aesthetic skills. Units are based around 4 key areas:

- Creating Dramatic Space
- Working in Role
- Using Dramatic Structures
- Responding to Drama

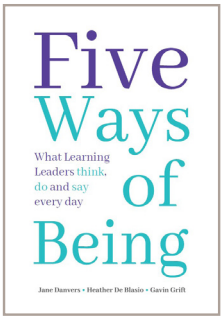
Five Ways of Being - What Learning Leaders Think, Do and Say Every Day



PRIMARY ✔
SECONDARY ✔

Everyone in a school community who is responsible for someone else's learning is a Learning Leader and the success of any school community is intrinsically bound to effective leadership at all levels. In this book the experienced authors contend that the very nature or essence of successful leadership requires that every leader is open to: Being trusting; Being brave; Being a storyteller; Being purposeful; Being growth focused. Through 32 evidence-based practical strategies, readers are empowered to embrace these Five Ways of Being and improve their ability to genuinely lead learning in others.

Building Interpersonal Relations in the Classroom
- Strategies to make the teacher-student relationship a pathway to success

This practical resource outlines strategies that go to the heart of effective teaching – that is, the relationship between teacher and students. It works on the assumption that strong relationships foster better behaviour, more effort and improved performance in students. Ultimately, good relationship practices empower students so that they can overcome any sense of helplessness, become more motivated to cooperate and contribute to a safer school environment. The range of strategies offered in this book contribute to these goals by helping teachers to create productive and enjoyable interpersonal relations with their learners. Ages: 5-17

Using Humour in the Classroom - A hands-on, how-to guide for effective and enjoyable teaching practice

Like a beacon of positivity in the serious, pressured environment of education today, ***Using Humour in the Classroom*** promotes the use of humour as a way to build rapport, encourage student achievement and growth and help teachers to remain playful and enthused about their work. It addresses both the major advantages of humour and how to avoid the pitfalls that are associated with it. Another invaluable feature of this resource is its wealth of practical ideas about how to nurture and harness humour to make teaching practice more effective. These ideas will sustain, support and surprise you as you develop and refine your teaching skills amid the challenges of the modern classroom. Ages: 9-17

Self Assessment and Learning Folders

Primary School Guidelines for Teachers - Revised Edition

SALF: Self Assessment and Learning Folders provides primary schools with a clear, practical framework for introducing Assessment for Learning (AfL) and helping children develop real ownership of their learning. Pupils basically reflect on their progress and take responsibility for how they learn.

WHAT'S NEW!

The revised 'Guidelines' book brings together ten key strategies that build pupils' peer- and self-assessment skills. Teachers are guided through the ten steps for creating and using ***SALF*** folders at all primary school class levels, including a full chapter on developing digital ***SALF*** folders. The Guidelines also include an implementation timeline and approaches for involving parents and carers. The ***SALF*** Primary School Guidelines for Teachers also includes a comprehensive ***Digital Companion Page (DCP)*** featuring videos and photographs of ***SALF*** in action, along with numerous downloadable templates and sample letters for parents.

Features of *SALF* Revised Guidelines

- ✓ Revised and enhanced templates at the end of each chapter
- ✓ Current authentic work samples from the classroom
- ✓ Vibrant photos of ***SALF*** in action in the classroom
- ✓ How to incorporate digital learning in the ***SALF*** process
- ✓ Role of **SEN** Teachers in supporting children with special education needs to engage with ***SALF*** methodologies

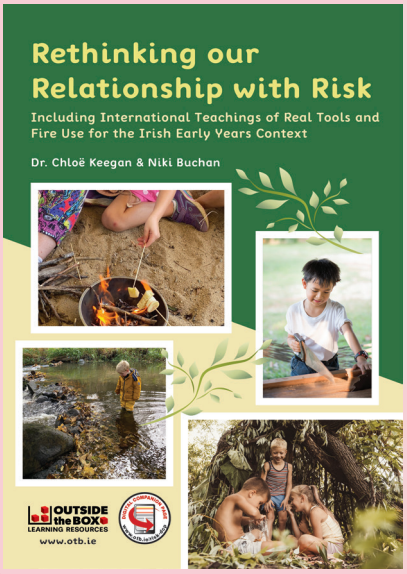
ECCE: EARLY CHILDHOOD CARE AND EDUCATION

The early years, particularly those under five, are the most critical for children's development. During this time, they learn at an extraordinary pace, and their experiences shape who they are and will become. Early childhood education encompasses much more than merely attending nursery or preschool; it involves providing learning support and fostering the holistic development of young minds. This includes nurturing their emotional, social, and physical needs.

Outside the Box Learning Resources is a publisher and provider of resources for education and health professionals and parents. We are committed to providing world class resources for Early Year's educators.



Rethinking our Relationship with Risk - Including International Teachings of Real Tools and Fire Use for the Irish Early Years Context

PRIMARY ✔

NEW

OTB are delighted to add this new title to their ECCE range, particularly as it has been written specifically for practitioners in Ireland. This book aims to provide adults working in the early years sector with practical, evidence-based strategies to rethink their relationship with risk and meaningfully incorporate the use of real tools and fire into their settings. The book includes a comprehensive DCP (Digital Companion Page)

By moving beyond fear and embracing the value of risky play, learning environments can be transformed into spaces that ignite creativity, build risk competence and instil a deep sense of ecological responsibility in young children. Engaging children in real, hands-on experiences with risk not only equips them with the skills to navigate challenges, but also fosters a stronger connection to the natural world. In doing so, we empower children and adults to become confident, resourceful individuals who are not only capable of managing risk but are also prepared to face risk with competence, curiosity and an enduring sense of purpose.

Age Suitability: 0-6

Online Training for Teachers

www.otblearning.ie

Founded in 2018, OTB Learning is a natural extension of Outside the Box Learning Resources - a leading educational publisher and distributor in Ireland. OTB Learning offers a contemporary online platform dedicated to high-quality professional development. Designed to be the PD (Professional Development) portal of choice for the needs of Teachers and Learning Support Teachers, the platform provides a diverse suite of courses that support real and practical learning.

Courses are available 24/7, 365 days a year, and once enrolled, participants retain full access to all course content and materials for the lifetime of the course. Each programme is supported by one of OTB Learning's professional e-tutors, and every course undergoes a rigorous review to ensure it meets a high-quality standard of excellence.

OTB Learning also delivers Department of Education-approved online summer courses for primary teachers in Ireland, with successful completion qualifying participants for EPV days. Expanding its reach, the platform is developing short, accessible courses for parents and guardians to help them better understand and support their children's individual learning needs.
