WELCOME TO WELL-BEING

Author:
Fiona Forman M. Sc.

Welcome to Well-Being is a new, 3-level positive mental well-being programme for pupils aged 4.5 to 7+. It is based on Positive Psychology, the science of well-being. Although the programme is incremental in nature, each level is also stand-alone.

The programme aims to enhance children's well-being and resilience through developing specific skills including emotional intelligence and regulation, boosting positive emotions and enhancing social skills and self-confidence.

The programme consists of a teacher book and accompanying pupil book for each of the three levels. The teacher book is supported by a comprehensive digital companion page which contains PowerPoints for all 10 levels in each book, supplementary activities, classroom posters, supporting videos and other digital content. The pupil book is colourful and appealing to young children and comes with a 4-page parental pull-out explaining the programme.

Recommended ages: 4.5 to 7+

Weaving Well-Being

THE MORE YOU WEAVE... THE BETTER YOU FEEL!

Weaving Well-Being is a positive mental well-being programme which aims to enhance well-being in pupils aged from 7+ to 12 years within the framework of the health curriculum. ***Weaving Well-Being*** is grounded in Positive Psychology. Although the programme is incremental in nature, each level can be used on its own.

The programme consists of 5 Teacher Guides and 5 corresponding Pupil Books. The teacher book is supported by a comprehensive digital companion page which contains PowerPoints for all 10 levels in each book, supplementary activities, classroom posters, supporting videos and other digital content.

Authors: Fiona Forman M. Sc. & Mick Rock **Recommended ages: 7+ to 12**

WIRED FOR WELL-BEING

NEW positive mental well-being programme based on Positive Psychology for pupils aged 12 to 15+

Wired For Well-Being is a new three-year positive mental well-being programme designed for pupils aged 12 to 15+. Although the programme is incremental in nature, each level is also stand-alone. It aims to teach pupils to understand and enhance their own well-being through a range of evidence-based strategies and skills. It consists of 3 Teacher Resource Books and 3 corresponding Pupil Books. The Teacher books include digital content including PowerPoints for the 8 lesson plans in each book.

Wired for Well-Being is incremental in nature. Concepts and skills are reinforced and revised throughout the 3 levels. The programme is drawn from the fields of Positive Psychology and Neuroscience, in order to develop positive well-being habits for life.

Recommended ages: 12-15+ **Author:** Fiona Forman M. Sc.

•Tools 2 Thrive•

Tools to Thrive is a two-level positive mental well-being programme, based on Positive Psychology and neuroscience. It is aimed at students aged 15 and older.

Tools to Thrive is a two-year positive mental well-being programme. Each level has 8 lessons designed to be taught over consecutive weeks, where possible. Research indicates that Positive Psychology programmes that are longer than 4 weeks but shorter than 12 weeks tended to have better results (*Sin & Lyubormirsky, 2009*).

Research also shows that having a high level of well-being is the greatest predictor of happiness and success in life for both adults and young people (Layard et al., 2014).

However, young people face ever-increasing challenges and demands as they grow into adulthood; there is a vital need to equip them with the skills and strategies that will help them to flourish and thrive despite these challenges.

The ***Tools to Thrive*** programme aims to introduce adolescents to these evidence-based skills (tools), drawn from the field of Positive Psychology, to develop positive well-being habits for life. Each lesson also indicates the neuroscience behind each tool, in order to give students an understanding of what is happening in the brain as each tool is utilised. **Recommended Ages: 15+**

Author: Fiona Forman M.Sc. Applied Positive Psychology
Additional material by Laura Meehan, Grad. Dip SPHE

Self-Kindness for Kids
- Whizzo-Voice to the Rescue

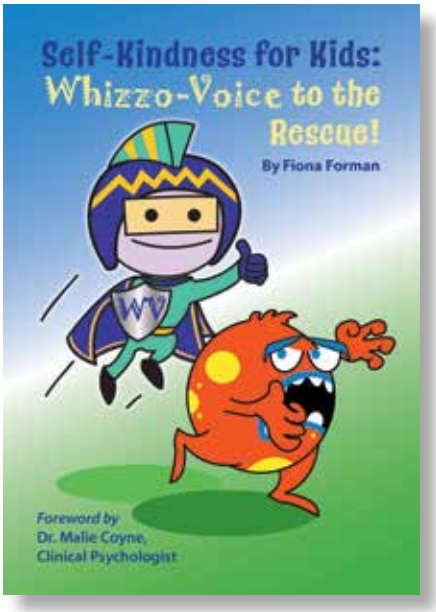

This little book will help children to engage in positive self-talk and be kind to themselves.

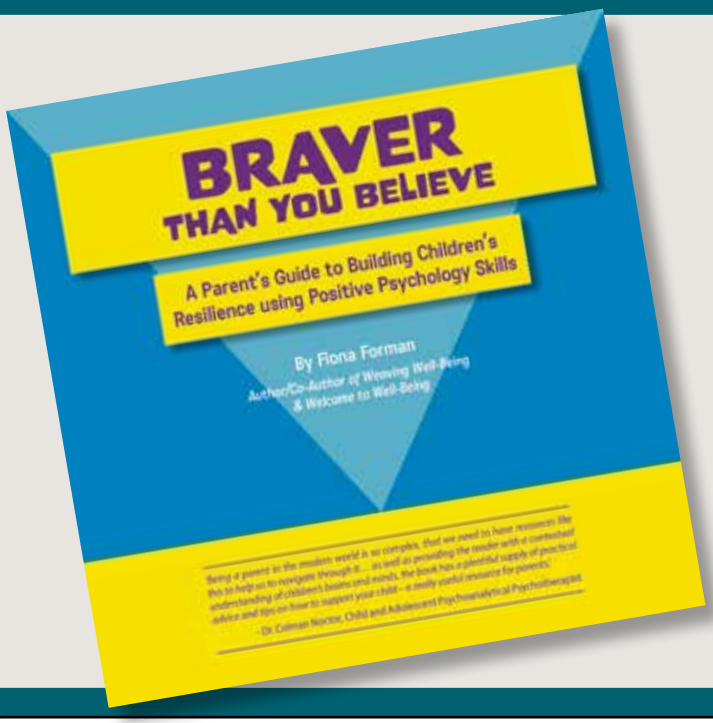

- Have you ever said things like this to yourself?
- I'm such an idiot!
- Why did I do that?
- I can't believe I did that, I'm so stupid!
- Why am I not as good as everyone else?

The truth is that we all speak to ourselves unkindly sometimes and judge ourselves harshly. This story book for kids will help them to be kinder to themselves.

The Doshel Bond
- Supporting blended families through tricky conversations

This is a heart-rending tale of parent and sibling relationships within a contemporary blended family. Some aspects of blended families can cause big emotions for children, young and old. *The Doshel Bond* highlights the importance of not shying away from the difficult conversations about these issues and provides caring adults with a gentle vehicle for open communication with children and also for personal self-reflection.

Off We Go! Series

Social Storybooks

for Children with Autism and other Communication Difficulties

Each book tells the story of a particular event or everyday activity in a sequence of twelve steps. The stories are written to help prepare a child to cope better with that new activity or event.

The books are used in lots of different ways - as social storybooks, as a preparation before an outing or as visual prompts to explain what comes next in a particular activity. The books also act as a great template for making homemade books or visual cards that can be focused on what is most important for your child.

S.A.L.F.
Self Assessment and Learning Folders

Primary School Guidelines for Teachers - Revised Edition

The ***Self Assessment and Learning Folders*** revised guidelines provide schools and teachers with a structured framework that bridges teacher-led learning and assessment with child-led learning and assessment.

These guidelines are based on socio constructivist principles of learning and provide a framework for teachers that enable children to become more active in their own learning and in the assessment of that learning.

WHAT'S NEW!

The revised guidelines bring together ten strategies/methodologies that best develop children's competencies for peer and self-assessment. It clearly outlines the ten steps in creating, compiling and completing ***Self-Assessment and Learning Folders***. A specific chapter aimed at supporting teachers in further developing ***SALF*** with Middle and Senior Primary school classes is now included, along with a dedicated chapter on helping schools develop ***SALF*** as a whole school initiative. It includes a sample implementation time frame, together with strategies for supporting the involvement of parents/guardians/carers and others in the process.

FURTHER ADDITIONS

- ✓ Revised templates at the end of each chapter
- ✓ Current authentic work samples from the classroom
- ✓ Vibrant photos of *SALF* in action in the classroom
- ✓ How to incorporate digital learning in the *SALF* process
- ✓ Role of SEN Teachers in supporting children with special education needs to engage with *SALF* methodologies

The Newell Literacy Programme

The fully revised ***Newell Literacy Programme*** is a phonics-based programme that concentrates on fusing the sounds of individual letters into syllables and words for reading, writing and spelling. The revised edition uses ***Sassoon® Primary*** font throughout. The font was carefully chosen by the author. It was researched with children, for children and developed specially for use in children's reading books to improve legibility for large blocks of reading matter.

The programme mainly comprises of seven books/eBooks, progressing in difficulty from level to level, each containing highly structured and finely graded lesson plans. Each level comes with a Digital Companion Page.

The strategies used to teach the programme are a modified version of the ***Orton-Gillingham Approach***. Each photocopiable book/eBook comes with a step-by-step description of the teaching methods and techniques, complete with a detailed listing of individual lessons. Importantly, the programme retains the flexibility for teachers to dip in and out of specific lessons as may be appropriate for diverse learning requirements. With no graphics, childish or otherwise, the programme can also be used for all ages from 5 to adult and ***for those learning English as a new language***. A set of A5 flashcards (30 separate cards) and a tutorial video accompany the programme and are included with the full kit.
Flashcards and/or individual books can also be ordered separately - Price: €19.95 & €35.00 each respectively.

Recommended ages: 5-adult

Spell ~~Rite~~ Write Right

Full Set Price
€149.95

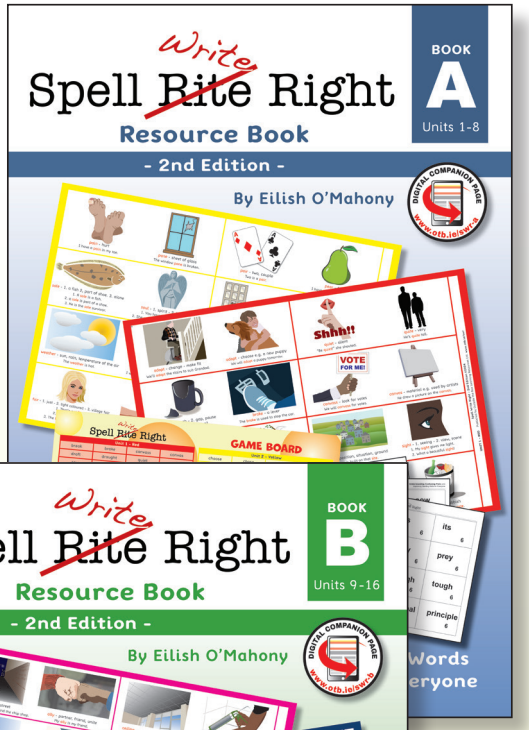

The ***Spell Write Right Programme*** is a powerful, games-based programme to effortlessly help older students with commonly confused words (e.g. there/their/they're; to/too/two; meet/meat; principal/principle etc.). It is particularly valuable for students who have literacy difficulties or dyslexic tendencies but can be used for English lessons in upper primary, lower secondary and/or for EAL students. The programme was created by former Dyslexia Association of Ireland tutor Eilish O'Mahony.

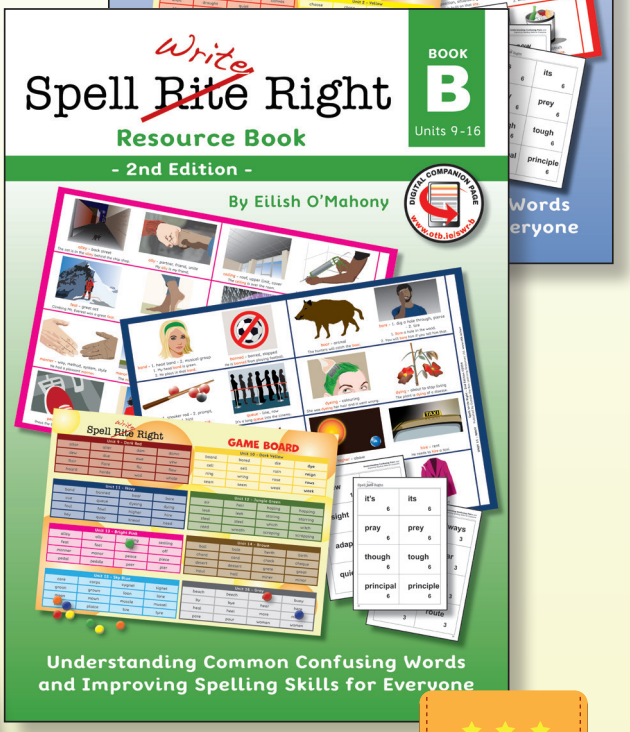

The programme uses an emerging font called ***Aravis***© throughout, which has been researched and developed by UK specialist publisher Crossbow Education. It meets all possible accessibility criteria for dyslexia and the visual difficulties associated with the condition.

The programme will equip students with clever methods, mental strategies, essential skills, problem-solving techniques and an abundance of confidence to work out the differences between all the common, everyday, confusing words.

Recommended ages: 10-adult

Author: Eilish O'Mahony

Working with Professionals - Giving parents/carers the tactics to promote successful outcomes for their children	9781913225070

About the Authors

Dr. Rob Long - Rob is a chartered educational psychologist whose main interest is supporting children who face social, emotional and mental health difficulties. He is committed to providing practical solutions to help understand the challenges that many children and young people face.

€7.95 each

5 for **€35.00**
10 for **€65.00**

Keith Hodgins - Having spent half of his 30-year police career working with young people, Keith has dealt with many complex family matters approaching each with honesty, openness and humour. His main influences are his psychological and family therapy training - as well as his wife and daughter, who provide him with constant angst, fun and love.

Sandra Curtin-Maggs - Sandra has worked in education for the past 12 years. She supports parents/carers of children with various degrees of additional needs, be it a long-term condition or a temporary blip. She has a particular interest in improving the emotional well-being of both children and parents/carers, with a focus on helping the family to help themselves.
